A delightfully written work of serious scholarship Jewish Book World Old Odessa on the Black Sea gained notoriety as a legendary city of Jewish gangsters and swindlers a frontier boomtown mythologized for the adventurers criminals and merrymakers who flocked there to seek easy wealth and lead lives of debauchery and excess Odessa is also famed for the brand of Jewish humor brought there in the nineteenth century from the shtetls of Eastern Europe and that flourished throughout Soviet times From a broad historical perspective Jarrod Tanny examines the hybrid Judeo Russian culture that emerged in Odessa in the nineteenth century and persisted through the Soviet era and beyond The book shows how the art of eminent Soviet era figures such as Isaac Babel Ilia Ilf Evgenii Petrov and Leonid Utesov grew out of the Odessa Russian Jewish culture into which they were born and which shaped their lives Traces the emergence development and persistence of the myth of Odessa as both Garden of Eden and Gomorrah A joy to read Robert Weinberg Swarthmore College Urban Renewal in the District of Columbia United States. The Ancestry of Regional Spatial Planning Louis C. Wassenhoven,2018-09-20 This book is not a historical or archaeological treatise but rather a study in which the author looks at the past not as a historian but as a planner who has the ambition to unravel the early manifestations of his discipline a discipline which did not exist as such in remote periods but the ingredients of which were nevertheless present The author has observed the past equipped with knowledge and

understanding of what regional planning was in the second half of the twentieth century and still is. He stands in the period of the first decades after the Second World War which were the formative years of regional planning and looks back at bygone ages. He discusses ideas and literature from the immediate post war period in order to examine the ancestry of regional planning through their lens. The book will attract a broad range of readers because of its approach and its wide coverage of historical periods and world regions. Although Europe is the main focus, the book contains material on all continents and all periods: the ancient world, the medieval age and the modern era. The history of Urban Planning is taught and researched widely, but the history or pre history before the twentieth century of Regional Spatial Planning is not. This book will fill that vacuum.

Housing and Planning References, 1963 **The Industrial Connection** Bernard Carl Rosen, Estudio que aborda el tema de como la industrializacion en los paises en desarrollo afecta al ambito de la familia. La industrializacion refuerza el grupo de parientes en una sociedad en desarrollo que valora una familia extensa; ademas la relacion entre maridos y esposas se vuelve mas comunicativa; demostrativa e igualitaria; las actitudes del rol sexual liberal aumentan el poder de la esposa dentro de la familia pero disminuye la fertilidad en la ciudad industrial. Por otra parte la industrializacion democratiza las relaciones entre padres e hijos y aumenta la motivacion para lograr el exito en los chicos aunque como se lleve este a cabo depende de la cultura y la estructura social de cada uno. *Urban Renewal* National Housing Center (U.S.).
