Documentary Sources in Ancient Near Eastern and Greco-Roman Economic History Heather D. Baker, Michael

Jursa,2014-08-31 This volume breaks new ground in approaching the Ancient Economy by bringing together documentary sources from Mesopotamia and the Greco Roman world Addressing textual corpora that have traditionally been studied separately the collected papers overturn the conventional view of a fundamental divide between the economic institutions of these two regions The premise is that while controlling for differences texts from either cultural setting can be brought to bear on the other and can shed light through their use as proxy data on such questions as economic mentalities and market development The book also presents innovative approaches to the quantitative study of large corpora of ancient documents The resulting view of the Ancient Economy is much more variegated and dynamic than traditional primitivist views would allow The volume covers the following topics Babylonian house size data as an index of urban living standards the Old Babylonian archives as a source for economic history Middle Bronze Age long distance trade in Anatolia long term economic development in Babylonia from the 7th to the 4th century BC legal institutions and agrarian change in the Roman Empire papyrological evidence for water lifting technology money circulation and monetization in Late Antique Egypt the application of Social Network Analysis to Babylonian cuneiform archives price trends in the ancient Near East and Mediterranean in the Hellenistic and Roman periods as well as the effects of locust plagues on prices **The Babylonian World** Gwendolyn

Leick,2009-06-02 Exploring all key aspects of the development of this ancient culture The Babylonian World presents an extensive up to date and lavishly illustrated history of the ancient state Babylonia and its holy city Babylon **A Companion to the Achaemenid Persian Empire, 2 Volume Set** Bruno Jacobs,Robert Rollinger,2021-08-31 A COMPANION TO THE ACHAEMENID PERSIAN EMPIRE A comprehensive review of the political cultural social economic and religious history of the Achaemenid Empire Often called the first world empire the Achaemenid Empire is rooted in older Near Eastern traditions A Companion to the Achaemenid Persian Empire offers a perspective in which the history of the empire is embedded in the preceding and subsequent epochs In this way the traditions that shaped the Achaemenid Empire become as visible as the powerful impact it had on further historical development But the work does not only break new ground in this respect but also in the fact that in addition to written testimonies of all kinds it also considers material tradition as an equal factor in historical reconstruction This comprehensive two volume set features contributions by internationally recognized experts that offer balanced coverage of the whole of the empire from Anatolia and Egypt across western Asia to northern India and Central Asia Comprehensive in scope the Companion provides readers with a panoramic view of the diversity richness and complexity of the Achaemenid Empire dealing with all the many aspects of history event history administration economy society communication art science and religion illustrating the multifaceted nature of the first true empire A unique historical account presented in its multiregional dimensions this important resource deals with many aspects of history administration economy society communication art science and religion it deals with topics that have only recently attracted interest such as court life leisure activities gender roles and more examines a variety of available sources to consider those predecessors who

influenced Achaemenid structure ideology and self expression contains the study of Nachleben and the history of perception up to the present day offers a spectrum of opinions in disputed fields of research such as the interpretation of the imagery of Achaemenid art or questions of religion includes extensive bibliographies in each chapter for use as starting points for further research devotes special interest to the east of the empire which is often neglected in comparison to the western territories Part of the acclaimed Blackwell Companions to the Ancient World series A Companion to the Achaemenid Persian Empire is an indispensable work for students instructors and scholars of Persian and ancient world history particularly the First Persian Empire **Cuneiform Uranology Texts** Eckart Frahm, John Steele, Paul-Alain Beaulieu, Wayne

Horowitz, 2018-01-01 Presents a newly recovered group of cuneiform texts from first millennium Babylonia and Assyria that provide prose descriptions of the drawing eseru of Mesopotamian constellations Describes these constellations in terms of their parts body parts for constellations in human or animal form parts of a wagon for The Wagon and The Wagon of Heaven the Big and Little Dipper and so forth The descriptions also typically speak of the clothing that constellations in human form wear their beards if they are male and paraphernalia that they hold or carry In the case of The Crab and The Wagon there is also reference to the Babylonian geometric shape apsamakku a four sided figure Illustrations **The Mathematics of**

Egypt, Mesopotamia, China, India, and Islam Victor J. Katz, Annette Imhausen, 2007-08-05 In recent decades it has become obvious that mathematics has always been a worldwide activity But this is the first book to provide a substantial collection of English translations of key mathematical texts from the five most important ancient and medieval non Western mathematical cultures and to put them into full historical and mathematical context The Mathematics of Egypt Mesopotamia China India and Islam gives English readers a firsthand understanding and appreciation of these cultures important contributions to world mathematics The five section authors Annette Imhausen Egypt Eleanor Robson Mesopotamia Joseph Dauben China Kim Plofker India and J Lennart Berggren Islam are experts in their fields Each author has selected key texts and in many cases provided new translations The authors have also written substantial section introductions that give an overview of each mathematical culture and explanatory notes that put each selection into context This authoritative commentary allows readers to understand the sometimes unfamiliar mathematics of these civilizations and the purpose and significance of each text Addressing a critical gap in the mathematics literature in English this book is an essential resource for anyone with at least an undergraduate degree in mathematics who wants to learn about non Western mathematical developments and how they helped shape and enrich world mathematics The book is also an indispensable guide for mathematics teachers who want to use non Western mathematical ideas in the classroom **Orientalia Lovaniensia periodica** , 1997 **Akkadian Royal Letters in Later Mesopotamian Tradition** Mary Frazer, 2024-06-17 Akkadian Royal Letters in Later Mesopotamian Tradition reconsiders the question of the authenticity of the letters attributed to earlier royal correspondents that were studied in Assyrian and Babylonian scribal centres ca 700 100 BCE By scrutinizing the letters

contents language possible transmission histories ca 1400 100 BCE and the epistemic limitations of authenticity criticism the book grounds scepticism about the letters authenticity in previously undiscussed features of the texts It also provides a new foundation for research into the related questions of when and why these beguiling texts were composed in the first place

Ancient Knowledge Networks Eleanor Robson,2019-11-14 Ancient Knowledge Networks is a book about how knowledge travels in minds and bodies as well as in writings It explores the forms knowledge takes and the meanings it accrues and how these meanings are shaped by the peoples who use it Addressing the relationships between political power family ties religious commitments and literate scholarship in the ancient Middle East of the first millennium BC Eleanor Robson focuses on two regions where cuneiform script was the predominant writing medium Assyria in the north of modern day Syria and Iraq and Babylonia to the south of modern day Baghdad She investigates how networks of knowledge enabled cuneiform intellectual culture to endure and adapt over the course of five world empires until its eventual demise in the mid first century BC In doing so she also studies Assyriological and historical method both now and over the past two centuries asking how the field has shaped and been shaped by the academic concerns and fashions of the day Above all Ancient Knowledge Networks is an experiment in writing about Mesopotamian science as it has often been known using geographical and social approaches to bring new insights into the intellectual history of the world s first empires **Cuneiform**

Inscriptions in the Collection of the Bible Lands Museum Jerusalem Joan Goodnick Westenholz,Aage Westenholz,2006-09-01 This volume offers new cuneiform sources on the political religious juridical and economic history of southern Babylonia in the nineteenth and early eighteenth centuries B C E Among these texts is a 600 lines long document no 1 recording in unusual detail the daily routine followed in the temples of the city of Larsa and thus sheds light on the religious practices of the ancient Babylonians Using this document as its point of departure the first part of the book examines those practices the service of the gods and the performance of the clergy This document is especially important for the history of ancient religion **The Babylonian Disputation Poems** Enrique Jiménez,2017-02-06 In The Babylonian

Disputation Poems Enrique Jim nez studies a group of ancient Babylonian poems that feature discussions between animals and trees Using intertextual parallels and comparison with similar works in other literatures he espouses a new classification of the Babylonian disputation poems as parodies After examining neighboring traditions of literary disputation he argues that the Babylonian poems influenced them and that some may have been translated from Akkadian to Aramaic from Aramaic and Syriac to Arabic In addition The Babylonian Disputation Poems provides editions of several previously unpublished Babylonian disputations such as Palm and Vine and the Series of the Spider It also offers the first edition of the latest known Babylonian fable The Story of the Poor Forlorn Wren The present book is an exemplary model for editing and commenting upon ancient texts and almost every approach has been taken into account Markham J Geller Journal for the Study of the Old Testament 43 5 2019 Brill's Companion to Herodotus Egbert J. Bakker,Irene J.F. de Jong,Hans van Wees,2002-05-31

Herodotus Histories can be read in many ways Their literary qualities never in dispute can be more fully appreciated in the light of recent developments in the study of pragmatics narratology and orality Their intellectual status has been radically reassessed no longer regarded as naïve and archaic the Histories are now seen as very much a product of the intellectual climate of their own day not only subject to contemporary literary religious moral and social influences but actively contributing to the great debates of their time Their reliability as historical and ethnographic accounts a matter of controversy even in antiquity is being debated with renewed vigour and increasing sophistication This Companion offers an up to date and in depth overview of all these current approaches to Herodotus remarkable work
