Anthology of Musical Forms - Structure & Style (Expanded Edition) Leon Stein, 1999-11-27. Structure and Style first published in 1962 and expanded in 1979 fills the need for new ways of analysis that put 20th century music in perspective. It spans forms in use before 1600 through forms and techniques in use today. Anthology of Musical Forms provides musical examples of forms treated in Structure and Style. Some examples are analyzed throughout. Most are left for the student to analyze. These books reflect Leon Stein's impressive background as student musician and composer. Stein studied composition with Leo Sowerby, Frederick Stock, conductor of the Chicago Symphony, and orchestration with Eric DeLamarter, his assistant. He earned M.Mus. and Ph.D. degrees at DePaul University and was associated with its School of Music as director of the Graduate Division and chairman of the Department of Theory and Composition until his retirement in 1976. He has composed a wide variety of works, including compositions for orchestra, chamber combinations, two operas, and a violin concerto. **Bach's Works for Solo Violin** Joel Lester, 2003-11-27. J.S. Bach's sonatas and partitas for solo violin have been central to the violin repertoire since the mid-18th century. This engaging introduction to these works is the first comprehensive exploration of their place within Bach's music, focusing on their structural and stylistic features as they have been perceived since their creation. Combining an analytical study, a historical guide, and an insightful introduction to Bach's style, this book will help violinists, scholars, and other listeners develop a deeper personal involvement with many aspects of these wonderful pieces.
