Bach And The Dance Of God

Eric Chafe

Bach And The Dance Of God:

Bach and the Dance of God Wilfrid Mellers, 1981 The author's brilliant musical detective work makes explicit as never before the connections between Bach's works whether sacred or secular and the myths dogma and liturgy of his church

Johann Sebastian Bach Martin Geck, 2006 Publisher Description Trinity and Salvation Declan Marmion, Gesa Thiessen, 2009 Studies in Theology Society and Culture invites scholarly contributions to themes including patterns of secularisation postmodern challenges to religion and the relation of faith and culture From a theological perspective it seeks constructive re-interpretations of traditional Christian topics including God creation salvation Christology ecclesiology in a way that makes them more credible for today It also welcomes studies on religion and science and on theology and the arts

Dance and the Music of J. S. Bach, Expanded Edition Meredith Little, Natalie Jenne, 2001 Stylized dance music and music based on dance rhythms pervade Bach's compositions Although this very special genre has long been a part of every serious musician's repertoire little has been written about it The original edition of this book addressed Bach's stylized dance pieces that actually bear the names of dances In this expanded version of their practical and insightful study Meredith Little and Natalie Jenne apply the same principles to a great number of Bach's works that exhibit identifiable dance rhythms but do not bear dance specific titles

Music and Society Richard Leppert, Susan McClary, 1989-06-15 This provocative volume of essays is now available in paperback The contributors to this volume musicologists sociologists cultural theorists all challenge the view that music occupies an autonomous aesthetic sphere Recently socially and politically grounded enterprises such as feminism semiotics and deconstruction have effected a major transformation in the ways in which the arts and humanities are studied leading in turn to a systematic investigation of the implicit assumptions underlying the critical methods of the last two hundred years Influenced by these approaches the writers here question a prevailing ideology that insists there is a division between music and society and examine the ways in which the two do in fact interact and mediate one another within and across socio-cultural boundaries

Suspended God Maeve Louise Heaney, 2022-06-16 Heaney traces the hidden history of music's presence in Christian thought including its often unrecognized influence on key figures such as von Balthasar Barth and Bonhoeffer She uses Lonergan's theological framework to explore musical composition as a theological act showing why when and how music is a useful symbolic form The book introduces eleven ground-breaking theologians and each chapter offers an entry point into the thought of the theologian being presented through an original piece of music which can be found on the companion website <https://bloomsbury.pub/suspendedgod> Heaney argues that music is a universally important means of making sense of life with which theology needs to engage as a means of expression and of development Musical composition is presented as an appropriate and even necessary form of doing theology in its quest to engage with the past mediate truth to the present and tradition it into the future

Music in the Castle of Heaven John Eliot Gardiner, 2013-10-03 Johann Sebastian Bach is one of the most unfathomable composers in

the history of music How can such sublime work have been produced by a man who when we can discern his personality at all seems so ordinary so opaque and occasionally so intemperate John Eliot Gardiner grew up passing one of the only two authentic portraits of Bach every morning and evening on the stairs of his parents house where it hung for safety during the Second World War He has been studying and performing Bach ever since and is now regarded as one of the composer s greatest living interpreters The fruits of this lifetime s immersion are distilled in this remarkable book grounded in the most recent Bach scholarship but moving far beyond it which explains in wonderful detail the ideas on which Bach drew how he worked how his music is constructed how it achieves its effects and what it can tell us about Bach the man Gardiner s background as a historian has encouraged him to search for ways in which scholarship and performance can cooperate and fruitfully coalesce This has entailed piecing together the few biographical shards scrutinising the music and watching for those instances when Bach s personality seems to penetrate the fabric of his notation Gardiner s aim is to give the reader a sense of inhabiting the same experiences and sensations that Bach might have had in the act of music making This I try to show can help us arrive at a more human likeness discernible in the closely related processes of composing and performing his music It is very rare that such an accomplished performer of music should also be a considerable writer and thinker about it John Eliot Gardiner takes us as deeply into Bach s works and mind as perhaps words can The result is a unique book about one of the greatest of all creative artists

SIR JOHN ELIOT GARDINER is one of the world s leading conductors not only of Baroque music but across the whole repertoire He founded the Monteverdi Choir and Orchestra the Orchestre de l Op ra de Lyon the English Baroque Soloists and the Orchestre Revolutionnaire et Romantique He has conducted most of the world s great orchestras and in many of the leading opera houses He lives and farms in Dorset

Bach's Cycle, Mozart's Arrow

Karol Berger, 2007-10-02 In this erudite and elegantly composed argument Karol Berger uses the works of Monteverdi Bach Mozart and Beethoven to support two groundbreaking claims first that it was only in the later eighteenth century that music began to take the flow of time from the past to the future seriously second that this change in the structure of musical time was an aspect of a larger transformation in the way educated Europeans began to imagine and think about time with the onset of modernity a part of a shift from the premodern Christian outlook to the modern post Christian worldview Until this historical moment as Berger illustrates in his analysis of Bach s St Matthew Passion music was simply in time Its successive events unfolded one after another but the distinction between past and future earlier and later was not central to the way the music was experienced and understood But after the shift as he finds in looking at Mozart s Don Giovanni the experience of linear time is transformed into music s essential subject matter the cycle of time unbends and becomes an arrow Berger complements these musical case studies with a rich survey of the philosophical theological and literary trends influencing artists during this period

Johann Sebastian Bach, His Work and Influence on the Music of Germany, 1685-1750 Philipp Spitta, 1899

Johann Sebastian Bach, his work and influence on the music of Germany, tr. by C. Bell and J.A.

Fuller-Maitland Julius August Philipp Spitta, 1884 **J. S. Bach's Johannine Theology** Eric Chafe, 2014-04 Bach's Johannine Theology The St John Passion and the Cantatas for Spring 1725 is a fertile examination of this group of fourteen surviving liturgical works Renowned Bach scholar Eric Chafe begins his investigation into Bach's theology with the composer's St John Passion concentrating on its first and last versions Beyond providing a uniquely detailed assessment of the passion Bach's Johannine Theology is the first work to take the work beyond the scope of an isolated study considering its meaning from a variety of musical and historical standpoints Chafe thereby uncovers a range of theological implications underlying Bach's creative approach itself Building considerably on his previous work Chafe here expands his methodological approach to Bach's vocal music by arguing for a multi-layered approach to religion in Bach's compositional process Chafe bases this approach primarily on two aspects of Bach's theology first the specific features of Johannine theology which contrast with the more narrative approach found in the Synoptic Gospels Matthew Mark Luke and second contemporary homiletic and devotional writings material that is not otherwise easily accessible and less so in English translation Bach's Johannine Theology provides an unprecedented enlightening exploration of the theological and liturgical contexts within which this music was first heard **ThirdWay**, 1985-04 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture **The New Leader**, 1981 **Johann Sebastian Bach** Rick Marschall, 2011-04-11 Two and a half centuries after his death the complex life of composer Johann Sebastian Bach continues to fascinate Bach's colorful life was anchored in his belief that music has been ordered by God's Spirit so much so that he began each composition by scrawling Jesu juva Jesus help me at the top of a blank page and concluded each with S D G short for Soli Deo Gloria to God alone be the glory Through the eyes of noted music and culture writer Rick Marschall the intensely personal yet boldly public faith that earned Bach the nickname The Fifth Evangelist takes on fresh meaning From a survey of Bach's family and its deep Christian roots to a behind-the-scenes look at how he crafted his masterpieces this book paints a picture of an astonishing figure and his relationship with his God Marschall brings Bach's enduring music and influence to the postmodern world and to all who would draw inspiration from his relentless pursuit of divinely ordained creativity

Liturgical Music for the Revised Common Lectionary Year C Thomas Pavlechko, Carl P. Daw, 2009-05 Completing the three book series for Lectionary Years A B and C this new book **The Cantatas of J. S. Bach** Alfred Dürr, 2005 This is the only English translation of this important book by the world's most distinguished Bach scholar This work is widely regarded as the most authoritative and comprehensive treatment of the Bach cantatas It begins with a historical survey of the seventeenth century background to the cantatas and performance practice issues The core of the book is a work-by-work study in which each cantata in turn is represented by its libretto a synopsis of its movements and a detailed analytical commentary This format makes it extremely useful as a reference work for anyone listening to performing in or studying any of the Bach cantatas All the cantata librettos are given in German English parallel text For the English edition the text has

been carefully revised to bring it up to date taking account of recent Bach scholarship **The Crucifixion** Fleming Rutledge, 2017-02-09 Few treatments of the death of Jesus Christ have made a point of accounting for the gruesome degrading public manner of his death by crucifixion a mode of execution so loathsome that the ancient Romans never spoke of it in polite society Rutledge probes all the various themes and motifs used by the New Testament evangelists and apostolic writers to explain the meaning of the cross of Christ She shows how each of the biblical themes contributes to the whole with the Christus Victor motif and the concept of substitution sharing pride of place along with Irenaeus's recapitulation model

Fanfare, 1981 *Rethinking Bach* Bettina Varwig, 2021 Johann Sebastian Bach has loomed large in the imagination of scholars performers and audiences since the late nineteenth century This new book edited by veteran Bach scholar Bettina Varwig gathers a diverse group of leading and emerging Bach researchers as well as a number of contributors from beyond the core of Bach studies The book's fifteen chapters engage in active rethinking of different topics connected with Bach the iconic name which broadly encompasses the historical individual the sounds and afterlives of his music as well as all that those four letters came to stand for in the later popular and scholarly imagination In turn challenging the fundamental assumptions about the nineteenth century Bach revival the rise of the modern work concept Bach's music as a code and about editions of his music as monuments Collectively these contributions thus take apart scrutinize dust off and reassemble some of our most cherished narratives and deeply held beliefs about Bach and his music In doing so they open multiple pathways towards exciting future modes of engagement with the composer and his legacy Johann Sebastian Bach's Christmas Oratorio Markus Rathey, 2016 In the last decades of the 17th century the feast of Christmas in Lutheran Germany underwent a major transformation when theologians and local governments waged an early modern war on Christmas discouraging riotous pageants and carnivalesque rituals in favor of more personal and internalized expressions of piety Christmas rituals such as the Heilig Christ plays and the rocking of the child Kindelwiegen were abolished and Christian devotion focused increasingly on the metaphor of a birth of Christ in the human heart John Sebastian Bach's Christmas Oratorio composed in 1734 both reflects this new piety and conveys the composer's experience living through this tumult during his own childhood and early career Markus Rathey's book is the first thorough study of this popular masterpiece in English While giving a comprehensive overview of the Christmas Oratorio as a whole the book focuses on two themes in particular the cultural and theological understanding of Christmas in Bach's time and the compositional process that led Bach from the earliest concepts to the completed piece The cultural and religious context of the oratorio provides the backdrop for Rathey's detailed analysis of the composition in which he explores Bach's compositional practices for example his reuse and parodies of movements that had originally been composed for secular cantatas The book analyzes Bach's original score and sheds new light on the way Bach wrote the piece how he shaped musical themes and how he revised his initial ideas into the final composition

Bach And The Dance Of God Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Bach And The Dance Of God**," compiled by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we will delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
