Faucett, 2023 John Sullivan Dwight 1813-93 was for much of the nineteenth century America's leading music critic Born into a musical family and educated at several premiere Boston schools he fell under the spell of New England Transcendentalism during which time he befriended Ralph Waldo Emerson Elizabeth Palmer Peabody Margaret Fuller George Ripley and others of a similarly progressive mindset Dwight resided at the socialist utopian community of Brook Farm where he learned the art of journalism and the business of publishing while writing for The Harbinger He wrote on many topics Transcendentalism of course but especially on music and musical performance Dwight was a skilled communicator and he conveyed ideas powerfully persuasively and constantly in language that had recently been given verve by German Romanticism and Emersonian Transcendentalism When Brook Farm collapsed Dwight's professional prospects ran desperately low After several years as a journeyman writer he launched in 1852 his own Dwight's Journal of Music A Paper of Art and Literature a newspaper that firmly established him as a serious music critic The Journal was published regularly until 1881 It was and remains an important periodical In its own time it spoke to America's growing appetite for art music today it is indispensable for research into nineteenth century American classical music especially in Boston This biography follows Dwight's fascinating life as he meets and writes about some of the era's most crucial intellectuals and musicians His enormous body of essays reviews and translations much of it illuminated here leads to the conclusion that Dwight the Music Critic and Dwight the Transcendentalist are inseparable Dave Brubeck and the Performance of Whiteness Kelsey Klotz, 2023 In Dave Brubeck and the Performance of Whiteness author Kelsey Klotz considers how Dave Brubeck a pivotal jazz musician and public figure represents manifestations of whiteness in mid century America **The Music of Carl Philipp Emanuel Bach** David Schulenberg, 2014 Of the four sons of J S Bach who became composers Carl Philipp Emanuel 1714-88 was the most prolific the most original and the most influential both during and after his lifetime This first full length English language study critically surveys his output examining not only the famous keyboard sonatas and concertos but also the songs chamber music and sacred works many of which resurfaced in 1999 and have not previously been evaluated The book also outlines the composer's career from his student days at Leipzig and Frankfurt Oder to his nearly three decades as court musician to Prussian King Frederick the Great and his last twenty years as cantor at Hamburg Focusing on the composer's choices within his social and historical context the book shows how C P E Bach deliberately avoided his father's style while adopting the manner of his Berlin colleagues derived from Italian opera A new perspective on the composer emerges from the demonstration that C P E Bach best known for his virtuoso keyboard works refashioned himself as a writer of vocal music and popular chamber compositions in response to changing cultural and aesthetic trends Supplementary texts and musical examples are included on a companion website David Schulenberg is professor of music at Wagner College and

teaches historical performance at the Juilliard School He is the author of *The Music of Wilhelm Friedemann Bach* University of Rochester Press 2010

**The Music of Wilhelm Friedemann Bach** David Schulenberg, 2010 The first born of the four composer sons of Johann Sebastian Bach Wilhelm Friedemann was often considered the most brilliant Yet he left relatively few works and died in obscurity This monograph the first on the composer in English identifies the unique features of Friedemann's music that make it worth studying and performing It considers how Friedemann's training and upbringing differed from those of his brothers leading to a style that diverged from that of his contemporaries Central to the book are detailed discussions of all Friedemann's extant works the virtuoso sonatas and concertos for keyboard instruments the extraordinary chamber compositions especially for flute and the hitherto neglected vocal music including sacred cantatas and a remarkable work in honor of King Frederick the Great of Prussia Special sections consider performance questions unique to Friedemann's music and provide a handy list of his works and their sources Numerous musical examples provide glimpses of many little known compositions including a concerto ignored by previous students of Friedemann's music here restored to his list of works Book Jacket

*Publications*, J. S. Bach George B. Stauffer, 2024-05-16 J S Bach's 250 extant organ works represent the greatest body of music for the pipe organ and during his lifetime Bach was able to combine great virtuosity daring passages for the feet as well as the hands with bold dramatic gestures to produce music that dazzled contemporary audiences In this book leading musicologist George B Stauffer shows that Bach focused steadily on organ composition for more than fifty years and that his unending quest for novelty innovation and refinement resulted in pieces that continue to reward and awe listeners today

Literature and Music in the Atlantic World, 1767-1867 Catherine Jones, 2014-07-16 This new study looks at the relationship of rhetoric and music in the era's intellectual discourses texts and performance cultures principally in Europe and North America Catherine Jones begins by examining the attitudes to music and its performance by leading figures of the American Enlightenment and Revolution notably Benjamin Franklin and Thomas Jefferson She also looks at the attempts of Francis Hopkinson William Billings and others to harness the Orphean power of music so that it should become a progressive force in the creation of a new society She argues that the association of rhetoric and music that reaches back to classical Antiquity acquired new relevance and underwent new theorisation and practical application in the American Enlightenment in light of revolutionary Atlantic conditions Jones goes on to consider changes in the relationship of rhetoric and music in the nationalising milieu of the nineteenth century the connections of literature music and music theory to changing models of subjectivity and Romantic appropriations of Enlightenment visions of the public ethical function of music
