Women Scientists in Fifties Science Fiction Films Bonnie Noonan, 2015-02-18 In the 1950s science was rapidly advancing and so were scientific opportunities for women Modern science fiction films reflected these simultaneous social developments This book proposes that the social ideology of the 1950s which was partly concerned with gender issues saturated the B science fiction films of that era and inspired a new appreciation for the role of women in scientific advancements and other social achievements Drawing on feminist literary and cultural theory the author

argues that the emergence of the modern American science fiction film in 1950 and the situation of post World War II female scientists together created a film genre That genre was explicitly amenable to exploring the tension between a woman s place in her home and her place in the work force particularly in scientific fields Early chapters provide a general introduction to the science fiction genre and specifically describe 1950s B science fiction films as they resonate with concerns proper to feminist theory Subsequent chapters offer detailed historically situated readings of 10 B science fiction films from the 1950s that feature women in science The cinematic representations of female scientists are compared and contrasted with real female professionals of the time illuminating the changing gender dynamics reflected in popular film in the 1950s Films analyzed include Rocketship X M It Came from Beneath the Sea Them Tarantula The Deadly Mantis Beginning of the End Kronos Cat Women of the Moon World Without End and Queen of Outer Space Harald Szeemann Harald Szeemann,2018-04-10 Born in Bern Switzerland in 1933 Harald Szeemann was a crucial force in identifying exhibiting and writing about the important new movements in postwar contemporary art This collection of seventy four texts from the curator s vast body of written work which includes essays lectures studio notes reviews interviews correspondence and transcripts introduces the depth of his method insight and inclusive artistic interests The pieces have been translated from German and French and collected in an informed authoritative edition making this the first time Szeemann s work is accessible in English The first two sections of this volume republish Szeemann s anthologies Museum der Obsessionen 1981 and Individuelle Mythologien 1985 The final part assembles important writings from 1986 until his death in 2005 to represent the later years of his career and round out a record of his contribution to and dialogue with later twentieth century art and artists The book s publication coincides with the opening of the Getty Research Institute s exhibition Harald Szeemann Museum of Obsessions and complements its catalogue as well as a contemporaneous satellite show at the Institute of Contemporary Art Los Angeles that focuses on Szeemann s Grandfather exhibition 1974 The Remarkable Life of John Murray Spear John Benedict Buescher,2006 John Murray Spear was one of nineteenth century America s most interesting characters A leading social agitator against slavery and capital punishment Spear also became the nation s most flamboyant spiritualist inventor of spirit machines and advocate of free love In his captivating biography John Buescher brings to life Spear s superlatively odd story Born in 1804 John Murray Spear began his career as a Universalist minister Later he was a colleague of William Lloyd Garrison and Theodore Parker in the abolitionist movement and worked as an activist among the New England reformers and Transcendentalists such as Bronson Alcott Lydia Maria Child and Dorothea Dix In mid life Spear turned to the new revelation of spiritualism and came under the thrall of what he believed were spirit messages Spear s spirits dictated that he and a small group of associates embark on plans for a perpetual motion machine an electric ship propelled by psychic batteries a vehicle that would levitate in the air and a sewing machine that would work with no hands human liberation sexual and otherwise were far stranger than anyone outside his closest associates imagined and were

aimed at the eventual manufacturing of human beings and the improvement of the race In the last years of his life retired by the spirits and regarded by fellow Gilded Age progressives as a visitor from another age if not another planet Spear helped organize support for anarchist socialist peace and labor causes Spear s life an odd mixture of comic absurdity and serious foreshadowing of the future provides us with a unique perspective on nineteenth century American religious and social life

Perverse Desire and the Ambiguous Icon Allen S. Weiss,1994-10-28 *Perverse Desire and the Ambiguous Icon* analyzes the limits of the applicability of psychoanalytic theory to aesthetic discourse and in doing so expands the range of non normative paradigms of spectatorial identification and sexual identity These considerations are based on the epistemological premises that the ideal seldom coincides with the empirical and that identification is always partial fragmented heterogeneous mixed such that total identification would be tantamount to delirium The imagination is but the ephemera of partial objects torn from culture and history the transgression by fragmentation of a contemporary cosmos all too unified and all too controlled to admit the most singular and idiosyncratic phantasms of our desires Thus we must posit an aesthetics where theory and interpretation are juxtaposed to or traced above the effects of the passions where a muscular contraction or spasm is worth as much as a concept It is here at the fragile limit between iconophilia and iconoclasm that the ironies and exigencies of poetic justice reside
