Bachelors Family:

The Age of the Bachelor Howard P. Chudacoff, 2020-12-08 In this engaging new book Howard Chudacoff describes a special and fascinating world the urban bachelor life that took shape in the late nineteenth century when a significant population of single men migrated to American cities Rejecting the restraints and dependence of the nineteenth century family bachelors found sustenance and camaraderie in the boarding houses saloons pool halls cafes clubs and other institutions that arose in response to their increasing numbers Richly illustrated anecdotal and including a unique analysis of The National Police Gazette the most outrageous and popular men s publication of the late nineteenth and the early twentieth century this book is the first to describe a complex subculture that continues to affect the larger meanings of manhood and manliness in American society The figure of the bachelor with its emphasis on pleasure self indulgence and public entertainment was easily converted by the burgeoning consumer culture at the turn of the century into an ambiguously appealing image of masculinity Finding an easy reception in an atmosphere of insecurity about manhood that image has outdistanced the circumstances in which it began to flourish and far outlasted the bachelor culture that produced it Thus the idea of the bachelor has retained its somewhat negative but alluring connotations throughout the rest of the twentieth century Chudacoff s concluding chapter discusses the contemporary singles scene now developing as the number of single people in urban centers is again increasing By seeing bachelorhood as a stage in life for many and a permanent status for some Chudacoff recalls a lifestyle that had a profound impact on society evoking fear disdain repugnance and at the same time a sense of romance excitement and freedom The book contributes to gender history family history urban history and the study of consumer culture and will appeal to anyone curious about American history and anxious to acquire a new view of a sometimes forgotten but still influential aspect of our national past *Fathers, Families, and the State in France, 1914-1945* Kristen Stromberg Childers, 2018-07-05 The state s policy with regard to fathers and fatherhood had a great impact on concepts of citizenship and gender in France in the era of the two World Wars Drawing on new material that has only recently become available from the archives of the Vichy regime Kristen Stromberg Childers analyzes the ways fathers were promoted as saviors of the nation after France s humiliating defeat by the Germans in June 1940 Childers argues that concern for the family and for the status of fathers in modern France was not merely a response to falling birthrates and German aggression but was fundamental to the very notion of citizenship and political participation The debate on men as gendered beings Childers demonstrates is central to the political social and cultural history of France in the modern age The father figure became a focus as participants from all classes and across the political spectrum debated what was wrong with the French family and what policies were needed to remedy the problem Childers examines how these policies were implemented what they reveal about the development of the welfare state in France and how they help explain the importance of Vichy in twentieth century French history Twenty eight illustrations including fifteen photographs many

Cataloging Policy and Support Office,2007 [Library of Congress Subject Headings](#) Library of Congress,Library of Congress. Subject Cataloging Division,Library of Congress. Office for Subject Cataloging Policy,2013 [The Way of the Bachelor](#) Alison R. Marshall,2011-02-17 The lives of early Japanese and Chinese settlers in British Columbia have come to define the Asian experience in Canada Yet many men travelled beyond British Columbia to settle in small Prairie towns and cities Chinese bachelors opened the region s first laundries and Chinese cafes They maintained ties to the Old World and negotiated a place in the new by fostering a vibrant homosocial culture based on friendship everyday religious practices the example of Sun Yat sen and the sharing of food This exploration of the intersection of gender and migration in rural Canada in particular offers new takes on the Chinese quest for identity in North America in general With a preface by the Honourable Inky Mark former Member of Parliament for Dauphin Swan River Marquette [How to Win The Bachelor](#) Chad Kultgen,Lizzy Pace,2023-05-23 Presents a behind the scenes look into the most popular reality television franchise of all time covering the history of the show and offering insight into the strategies that separate the winners from the losers Publisher s description **Essays in Applied Economics** Arthur Cecil Pigou,1965 First Published in 1965 Routledge is an imprint of Taylor Francis an informa company [Citizen Bachelors](#) John Gilbert McCurdy,2011-03-15 In 1755 Benjamin Franklin observed a man without a wife is but half a man and since then historians have taken Franklin at his word In Citizen Bachelors John Gilbert McCurdy demonstrates that Franklin s comment was only one side of a much larger conversation Early Americans vigorously debated the status of unmarried men and this debate was instrumental in the creation of American citizenship In a sweeping examination of the bachelor in early America McCurdy fleshes out a largely unexamined aspect of the history of gender Single men were instrumental to the settlement of the United States and for most of the seventeenth century their presence was not particularly problematic However as the colonies matured Americans began to worry about those who stood outside the family Lawmakers began to limit the freedoms of single men with laws requiring bachelors to pay higher taxes and face harsher penalties for crimes than married men while moralists began to decry the sexual immorality of unmarried men But many resisted these new tactics including single men who reveled in their hedonistic reputations by delighting in sexual horseplay without marital consequences At the time of the Revolution these conflicting views were confronted head on As the incipient American state needed men to stand at the forefront of the fight for independence the bachelor came to be seen as possessing just the sort of political social and economic agency associated with citizenship in a democratic society When the war was won these men demanded an end to their unequal treatment sometimes grudgingly and the citizen bachelor was welcomed into American society Drawing on sources as varied as laws diaries political manifestos and newspapers McCurdy shows that in the course of the seventeenth

and eighteenth centuries the bachelor was a simultaneously suspicious and desirable figure suspicious because he was not tethered to family and household obligations yet desirable because he was free to study devote himself to political office and fight and die in battle He suggests that this dichotomy remains with us to this day and thus it is in early America that we find the origins of the modern day identity of the bachelor as a symbol of masculine independence McCurdy also observes that by extending citizenship to bachelors the founders affirmed their commitment to individual freedom a commitment that has subsequently come to define the very essence of American citizenship

Bachelors Abounding Terry Reed,2016 Standing up for gentlemen who prefer to avoid matrimony Terry Reed explores explains and defends the unsteady reputation of wondrous bachelordom against its traditionally soiled reputation its questionable eccentricities its ill comprehended motivations and its ostensibly nefarious ends

Heredity Explored Staffan Müller-Wille,Christina Brandt,2016-07-08 This book examines the wide range of scientific and social arenas in which the concept of inheritance gained relevance in the late nineteenth and early twentieth centuries Although genetics emerged as a scientific discipline during this period the idea of inheritance also played a role in a variety of medical agricultural industrial and political contexts The book which follows an earlier collection *Heredity Produced* covering the period 1500 to 1870 addresses heredity in national debates over identity kinship and reproduction biopolitical conceptions of heredity degeneration and gender agro industrial contexts for newly emerging genetic rationality heredity and medical research and the genealogical constructs and experimental systems of genetics that turned heredity into a representable and manipulable object Taken together the essays in *Heredity Explored* show that a history of heredity includes much more than the history of genetics and that knowledge of heredity was always more than the knowledge formulated as Mendelism It was the broader public discourse of heredity in all its contexts that made modern genetics possible
