Bachmans Rage Long Walk Roadwork:

Worlds Gone Awry John J. Han, C. Clark Triplett, Ashley G. Anthony, 2018-08-30 Dystopian fiction captivates us by depicting future worlds at once eerily similar and shockingly foreign to our own This collection of new essays presents some of the most recent scholarship on a genre whose popularity has surged dramatically since the 1990s Contributors explore such novels as *The Lord of the Flies* *The Heart Goes Last* *The Giver* and *The Strain* Trilogy as social critique revealing how they appeal to the same impulse as utopian fiction the desire for an idealized yet illusory society in which evil is purged and justice prevails

The Bachman Books Stephen King, 1986 *Dissecting Stephen King* Heidi Strengell, 2005 In a thoughtful well informed study exploring fiction from throughout Stephen King s immense oeuvre Heidi Strengell shows how this popular writer enriches his unique brand of horror by building on the traditions of his literary heritage Tapping into the wellsprings of the gothic to reveal contemporary phobias King invokes the abnormal and repressed sexuality of the vampire the hubris of Frankenstein the split identity of the werewolf the domestic melodrama of the ghost tale Drawing on myths and fairy tales he creates characters who like the heroic Roland the Gunslinger and the villainous Randall Flagg may either reinforce or subvert the reader s childlike faith in society And in the manner of the naturalist tradition he reinforces a tension between the free will of the individual and the daunting hand of fate Ultimately Strengell shows how King shatters our illusions of safety and control King places his decent and basically good characters at the mercy of indifferent forces survival depending on their moral strength and the responsibility they may take for their fellow men

The Haunted Muse Richard M. Magee,2016-04-26 The Salem witch trials and the many narratives based on them both contemporaneous and subsequent discussions have had a powerful influence on the American national psyche informing the nation s political debates and propelling its fears Perhaps one of the major reasons for the importance of the trials is how they conceive of and present a narrative of danger The horror grows in and seems to threaten not just the body politic but perhaps more importantly the domestic sanctuary The home and hearth become a contested ground where good and evil fight for the souls of the inhabitants or an infection that threatens to spread to other homes and eventually the entire community The fear of witchcraft or demonic possession reveals not just a religious mania but also a level of misogyny Much has been made of the connections between witchcraft accusations and midwifery homeopathy and other usually female pursuits The link between midwifery and witchcraft is especially interesting here however as it suggests an anxiety linked to notions of creation and procreation This book proposes a link between the fears of usurped procreation elicited by the trials and fears of misdirected or usurped creativity In many Gothic stories the authors imagine their literary creations as children who have been transformed by malignant forces much as the Puritans of 1692 feared that the devil was transforming their actual children The home in the Gothic story becomes a warped version of the sacred domestic space of sentimental literature and it transforms from refuge to place of terror The authors examined here include Nathaniel Hawthorne Louisa May Alcott Rose Terry Cooke Charlotte Perkins Gilman Shirley Jackson Stephen King and Ira Levin
