Back From The Deep Strange Story Of The Sister Subs:

Back from the Deep Carl LaVO, 2012-10-11 This epic World War II saga follows the USS Squalus and Sculpin as they play out their dramatic destinies in the Pacific The author a seasoned journalist re creates their entire perilous journey The Squalus sank during a test dive in 1939 but thirty three trapped crewmen were saved thanks to the revolutionary use of the McCann diving bell The Sculpin s role in that historic rescue is just the first of many incongruous twists of fate that brought the two subs together after the Squalus was salvaged and rechristened the Sailfish Carl LaVO skillfully weaves together the tragic loss of the Sculpin to a Japanese destroyer with the frenetic wrath of its sister sub Their intertwined fates come to an eerie climax as the Sailfish unleashes a ten hour attack on the Japanese aircraft carrier Chuyo amid a raging typhoon unwittingly killing twenty two of the forty three Americans captured from the sunken Sculpin The saga comes to a close with a moving description of the surviving Sculpin crewmen as they face incredible hardship torture and disease as POWs in Japan This book is certain to instill a renewed appreciation for the intrepid men and stealthy boats that were the soul of the Pacific campaign s silent service

USS Pampanito Gregory F Michno, 2016-01-12 Most World War II submarine stories are glorifications of war written by submarine captains about their own boats But the USS Pampanito was not a typical submarine The sub and its crew caused plenty of destruction but they found the pinnacle of their honor and fame in a dramatic sea rescue Gregory F Michno relates the experiences of the crewmen both enlisted men and officers who served on the USS Pampanito The Pampanito story begins with the boat s construction in 1943 continues through its six combat missions and concludes with its decommissioning after the war in 1945 The heart of the book is the September 12 1944 attack on a Japanese convoy carrying English and Australian POWs from the Burma Siam Railway of Bridge on the River Kwai fame to prison camps in Japan The Pampanito helped sink two of the prison ships unwittingly killing hundreds of Allied soldiers but then returned to rescue the survivors The crew picked a record seventy three men from the sea

Sealab Ben Hellwarth, 2012-01-10 Sealab tells the story of how the U S Navy program tried to develop the marine equivalent of the space station and why the Navy pulled the plug Hellwarth has interviewed surviving members of the three Sealab experiments in addition to conducting archival research to tell this first comprehensive story about the Sealab program

The USS Puffer in World War II Craig R. McDonald, 2015-03-19 Submarines were responsible for about 55 percent of the tonnage of the Japanese fleets sunk during World War II The 22 percent casualty rate of U S submariners was the highest of the military services This volume traces the career of the submarine the USS Puffer from the laying of her keel and her commissioning on April 27 1943 until her departure for the scrap yard in late 1960 Compiled from interviews with former crew members including the author s father Donald B McDonald as well as other contemporary sources it follows the crew of the Puffer through nine war patrols Events recollected include the First War Patrol which resulted in a record setting 38 hour submergence because of enemy fire the dangerous transfer of torpedoes while surfaced in enemy waters and the wild

Wadle,2019-03-28 The accepted narrative of the interwar U S Navy is one of transformation from a battle centric force into a force that could fight on the three planes of war in the skies on the water and under the waves The political and cultural tumult that accompanied this transformation is another story Ryan D Wadle s Selling Sea Power explores this little known but critically important aspect of naval history After World War I the U S Navy faced numerous challenges a call for naval arms limitation the ascendancy of air power and budgetary constraints exacerbated by the Great Depression Selling Sea Power tells the story of how the navy met these challenges by engaging in protracted public relations campaigns at a time when the means and methods of reaching the American public were undergoing dramatic shifts While printed media continued to thrive the rapidly growing film and radio industries presented new means by which the navy could connect with politicians and the public Deftly capturing the institutional nuances and the personalities in play Wadle tracks the U S Navy s at first awkward but ultimately successful manipulation of mass media At the same time he analyzes what the public could actually see of the service in the variety of media available to them including visual examples from progressively more sophisticated and effective public relations campaigns Integrating military policy and strategy with the history of American culture and politics Selling Sea Power offers a unique look at the complex links between the evolution of the art and industry of persuasion and the growth of the modern U S Navy as well as the connections between the workings of communications and public relations and the command of military and political power **Encyclopedia of Ocean Engineering** Weicheng Cui,Shixiao
