The Changing World Religion Map Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions, faiths and practices. It discusses a broad range of issues and phenomena that are related to religion, including nature, ethics, secularization, gender and identity. Broadening the context, it studies the interrelation between religion and other fields, including education, business, economics and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions. Beginning with an introduction of the concept of the changing world religion map, the book first focuses on nature, ethics and the environment. It examines humankind's eternal search for the sacred and discusses the emergence of green religion as a theme that cuts across many faiths. Next, the book turns to the theme of the pilgrimage, illustrated by many examples from all parts of the world. In its discussion of the interrelation between religion and education, it looks at the role of missionary movements. It explains the relationship between religion, business, economics and law by means of a discussion of legal and moral frameworks and the financial and business issues of religious organizations. The next part of the book explores the many new faces that are part of the religious landscape and culture of the Global North: Europe, Russia, Australia and New Zealand, the U.S. and Canada, and the Global South: Latin America, Africa and Asia. It does so by looking at specific population movements, diasporas and the impact of globalization. The volume next turns to secularization as both a phenomenon occurring in the Global religious North and as an emerging and distinguishing feature in the metropolitan, cosmopolitan and gateway cities and regions in the Global South. The final part of the book explores the changing world of religion in regards to gender and identity issues, the political religious nexus and the new worlds associated with the virtual technologies and visual media.

Best Game Ever Adam Lucas, 2011-10-18 The Best Game Ever is a revealing look at the University of North Carolina Tar Heels 1956-57 season, one of the most storied in college basketball history. From the first day of practice when forward Lennie Rosenbluth predicted a winning season to the final game, a triple overtime victory over Wilt Chamberlain's legendary Kansas team, the season developed into what many sports historians believe was the start of college basketball hysteria, not only on Tobacco Road but nationwide. The 1956-57 Tar Heels finished a perfect 32-0. The only previous team in Carolina history to achieve perfection was the 1924 team, years before the NCAA Tournament was created.
