Jones,2012 We are well into a second age of digital information Our information is moving from the desktop to the laptop to the palmtop and up into an amorphous cloud on the Web How can one manage both the challenges and opportunities of this new world of digital information What does the future hold This book provides an important update on the rapidly expanding field of personal information management PIM Part I Always and Forever introduces the essentials of PIM Information is personal for many reasons It s the information on our hard drives we couldn t bear to lose It s the information about us that we don t want to share It s the distracting information demanding our attention even as we try to do something else It s the information we don t know about but need to Through PIM we control personal information We integrate information into our lives in useful ways We make it ours With basics established Part I proceeds to explore a critical interplay between personal information always at hand through mobile devices and forever on the Web How does information stay ours in such a world Part II Building Places of Our Own for Digital Information will be available in the

Summer of 2012 and will consist of the following chapters Chapter 5 Technologies to eliminate PIM We have seen astonishing advances in the technologies of information management in particular to aid in the storing structuring and searching of information These technologies will certainly change the way we do PIM will they eliminate the need for PIM altogether Chapter 6 GIM and the social fabric of PIM We don't and shouldn't manage our information in isolation Group information management GIM especially the kind practiced more informally in households and smaller project teams goes hand in glove with good PIM Chapter 7 PIM by design Methodologies principles questions and considerations as we seek to understand PIM better and to build PIM into our tools techniques and training Chapter 8 To each of us our own Just as we must each be a student of our own practice of PIM we must also be a designer of this practice This concluding chapter looks at tips traps and tradeoffs as we work to build a practice of PIM and places of our own for personal information Table of Contents A New Age of Information The Basics of PIM Our Information Always at Hand Our Information Forever on the Web

The Lost Civilizations of the Stone Age Richard Rudgley, 2000-01-25 Examines the history of mankind during the Neolithic Age and presents evidence that the Stone Age human was more advanced than science originally thought Includes figures and photographs *The Invention of Prehistory* Stefanos Geroulanos, 2024-04-02 A n incisive and captivating reassessment of prehistory In lucid prose Geroulanos unspools an enthralling and detailed history of the development of modern natural science It's a must read Publishers Weekly starred review An astute powerfully rendered history of humanity Kirkus Reviews starred review An eminent historian tells the story of how we came to obsess over the origins of humanity and how for three centuries ideas of prehistory have been used to justify devastating violence against others Books about the origins of humanity dominate bestseller lists while national newspapers present breathless accounts of new archaeological findings and speculate about what those findings tell us about our earliest ancestors We are obsessed with prehistory and in this respect our current era is no different from any other in the last three hundred years In this coruscating work acclaimed historian Stefanos Geroulanos demonstrates how claims about the earliest humans not only shaped Western intellectual culture but gave rise to our modern world The very idea that there was a human past before recorded history only emerged with the Enlightenment when European thinkers began to reject faith based notions of humanity and history in favor of supposedly more empirical ideas about the world From the state of nature and Romantic notions of virtuous German barbarians to theories about Neanderthals killer apes and a matriarchal paradise where women ruled Geroulanos captures the sheer variety and strangeness of the ideas that animated many of the major thinkers of the eighteenth and nineteenth centuries including Jean Jacques Rousseau Charles Darwin and Karl Marx Yet as Geroulanos shows such ideas became for the most part the ideological foundations of repressive regimes and globe spanning empires Deeming other peoples savages allowed for guilt free violence against them notions of killer apes who were our evolutionary predecessors made war seem natural The emergence of modern science only accelerated the West's imperialism The Nazi obsession with race was rooted

in archaeological claims about prehistoric IndoGermans the idea that colonialized peoples could be bombed back to the Stone Age was made possible by the technology of flight and the anthropological idea that civilization advanced in stages As Geroulanos argues accounts of prehistory tell us more about the moment when they are proposed than about the deep past and if we hope to start improving our future we would be better off setting aside the search for how it all started A necessary timely indelible account of how the quest for understanding the origins of humanity became the handmaiden of war and empire The Invention of Prehistory will forever change how we think about the deep past *Back to the Stone Age Illustrated* Edgar Rice Burroughs,2021-08-28 The fifth installment of Edgar Rice Burroughs s Pellucidar series Back to the Stone Age recounts the strange adventures of Lieutenant von Horst a member of the original crew that sailed to Pellucidar with Jason Gridley and Tarzan who is left behind in the inner world Von Horst wanders friendless and alone from one danger to the next among the Stone Age peoples mighty reptiles and huge animals that have been extinct on the outer crust for thousands of years But woven among the tales of savage cave men in the country of the Basti the hideous Gorbuses in the caverns beneath the Forest of Death and the terrible Gaz is the story of the love this cultured hero feels for a barbarian slave girl who has spurned and discouraged him working instead toward her own mysterious goal **Edgar Rice Burroughs** Robert B. Zeuschner,2024-10-14 In creating some of the most enduring characters in 20th century literature Burroughs 1875 1950 left a complex bibliographic record of editions and a long chain of fascinated collectors The present reference work details all United States versions of all his works published through 1995 Each listing begins with a description of the first magazine appearance of the story with full publication data the first hardcover is then examined in detail with publisher date a complete description of the book s cover and jacket print run price number of pages and characteristics that separate it from following editions Similar information is then provided from all subsequent editions **Hands-on History! Stone Age** Charlotte Hurdman,2012-12-05 Travel back two million years to discover fascinating facts about the life of Stone Age people where they lived what they ate and what they looked like Marvel at the fine tools and weapons they made and at their survival alongside creatures such as mammoths **Back to the Stone Age: Illustrated Edition** Edgar Rice Edgar Rice,2021-03-31 Back to the Stone Age is a novel by American writer Edgar Rice Burroughs the fifth in his series set in the lost world of Pellucidar It first appeared as a six part serial in Argosy Weekly from January 9 to February 13 1937 under the title Seven Worlds to Conquer
