experiences of being uniquely alive in today's impersonal world. Our essential value center defines our distinctive personhood. This interior core can be activated by external stimuli into experiences of sustained secular spiritual bliss that celebrate our one and only inimitable personhood. How? By connecting to and uniting becoming One with three other here on earth entities that can stimulate our value center both emotionally and physically: nature, art, and romantically beloved humans. These three alone can open gateways that lead to the highest renewal of the essence, the soul of Selfhood in a secular manner. By learning to approach the wonders of the physical universe selectively, we can experience a merging with chosen aspects of nature and come away with a glorious sense of having participated in eternity. A museum stroll, a novel, and music may turn into exhilarating experiences because art at its best expresses ideas that make manifest in external material form the artist's values. If they match our own, we may feel elevated to the point of experiencing the art aesthetically and spiritually. Romantic love with its sexual component is the ultimate secular spiritual experience because the most desirable and cherished human being is a living embodiment of our supreme values, making this mind-body union the most sacred of all. Plus happily along with the three primaries, families and friends are rewarding subcategories for sharing marvelous spiritual-like experiences.
