Cultures of Citizenship in Post-war Canada, 1940 - 1955 Nancy Christie, Michael Gauvreau, 2004-01-15 The years between the end of World War II and the mid 1960s have usually been viewed as an era of political and social consensus made possible by widely diffused prosperity creeping Americanization and fears of radical subversion and a dominant culture challenged periodically by the claims of marginal groups By exploring what were actually the mainstream ideologies and cultural practices of the period the authors argue that the postwar consensus was itself a precarious cultural ideal that was characterized by internal tensions and while containing elements of conservatism reflected considerable diversity in the way in which citizenship identities were defined Contributors include Denyse Baillargeon Universit de Montr al P E Bryden Mount Allison University Nancy Christie Michael Gauvreau Karine Hebert Carleton University Len Kuffert Carleton University and Peter S McInnis St Francis Xavier University

**Handbook Global History of Work** Karin Hofmeester, Marcel van der Linden, 2017-11-20 Coffee from East Africa wine from California chocolate from the Ivory Coast all those every day products are based on labour often produced under appalling conditions but always involving the combination of various work processes we are often not aware of What is the day to day reality for workers in various parts of the world and how was it in the past How do they work today and how did they work in the past These and many other questions comprise the field of the global history of work a young discipline that is introduced with this handbook In 8 thematic chapters this book discusses these aspects of work in a global and long term perspective paying attention to several kinds of work Convict labour slave and wage labour labour migration and workers of the textile industry but also workers organisation strikes and motivations for work are part of this first handbook of global labour history written by the most renowned scholars of the profession

*Repenser Les Institutions Pour Le Travail Et L'emploi* Canadian Industrial Relations Association. Meeting, Gregor Murray, 2002 Canadian History: Confederation to the present Martin Brook Taylor, Doug Owram, 1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover Harnessing Labour Confrontation Peter Stuart McInnis, 2002-01-01 A formative moment in Canadian history the 1940s left as a legacy not only the welfare state but also the legal framework that has defined organized labour for five decades BOOK JACKET

*Canada's 1960s* Bryan Palmer, 2008-03-29 Rebellious youth the Cold War New Left radicalism Pierre Trudeau Red Power Quebec's call for Revolution Marshall McLuhan these are just some of the major forces and figures that come to mind at the slightest mention of the 1960s in Canada Focusing on the major movements and personalities of the time as well as the lasting influence of the period Canada's 1960s examines the legacy of this rebellious decade's impact on contemporary notions of Canadian identity Bryan D Palmer demonstrates how after massive postwar immigration new political movements and at times violent protest Canada could no longer be viewed in the old ways National identity long rooted in notions of

Canada as a white settler Dominion of the North marked profoundly by its origins as part of the British Empire had become unsettled Concerned with how Canadians entered the Sixties relatively secure in their national identities Palmer explores the forces that contributed to the post 1970 uncertainty about what it is to be Canadian Tracing the significance of dissent and upheaval among youth trade unionists university students Native peoples and Quebecois Palmer shows how the Sixties ended the entrenched nineteenth century notions of Canada The irony of this rebellious era however was that while it promised so much in the way of change it failed to provide a new understanding of Canadian national identity A compelling and highly accessible work of interpretive history Canada s 1960s is the book of the decade about an era many regard as the most turbulent and significant since the years of the Great Depression and World War II Labor Divided in the Postwar European Welfare State Dennie Oude Nijhuis,2013-06-24 This book explains how the success of attempts to expand the boundaries of the postwar welfare state in the Netherlands and the United Kingdom depended on organized labor s willingness to support redistribution of risk and income among different groups of workers By illuminating and explaining differences within and between labor union movements it traces the historical origins of inclusive and dual welfare systems In doing so the book shows that labor unions can either have a profoundly conservative impact on the welfare state or act as an impelling force for progressive welfare reform Based on an extensive range of archive material this book explores the institutional foundations of social solidarity **Capitalism and Colonialism: The Making of Modern Canada 1890-1960** Bryan D. Palmer,2025-09-02 This second volume of Bryan Palmer s history of Canada covers 1890 to 1960 Weaving together themes that include business labour politics and social history this account brings the experiences of Indigenous peoples into the centre of the narrative Canada experienced extraordinary growth during these decades notably after the Second World War when many Canadians quickly became far better off Yet vast inequalities persisted Indigenous peoples experienced ongoing and often worsening deprivation and ordinary people saw little or no real improvement in their lives These realities set the stage for the interplay of reform resistance and reaction that followed after 1960 Palmer examines the continuing role of capitalism and colonialism in structuring Canada in the period between 1890 and 1960 from capital s conflicts and fragile ententes with labour to the struggles of Indigenous Peoples and francophone Canada and the changing role of Canadian capital internationally Relying on the work of scholars who have produced a vast academic literature on a wide range of topics in Canadian history Bryan Palmer offers a new history of Canada which reflects the knowledge and values of 21st century Canadians **Power, Politics, and Principles** Taylor Hollander,2018-01-01 Power Politics and Principles gets to the root of the policy making process revealing how a wartime order forced employers to the collective bargaining table and marked a new stage in Canadian industrial relations **The Limits of Labour** David Bright,2011-11-01 In a few short decades before the First World War Calgary was transformed from a frontier outpost into a complex industrial metropolis With industrialization there emerged a diverse and equally complex working class David Bright

explores the various levels of class formation and class identity in the city to argue that Calgary's reputation as a prewar centre of labour conservatism is in need of revision Bright also delineates the trials of the Calgary labour movement in the 1920s Internal divisions and dissent prevented the movement from realizing the potential strength of the working class Instead even as local capitalism restructured itself political and industrial labour organizations wilfully fragmented their own base of support In particular they failed to address the concerns and needs of the growing number of unemployed in the city a neglect that foreshadowed events of the 1930s This failure left the labour movement unable to meet the challenge of the Great Depression In part at least the demise of labour as a viable political alternative in Calgary paved the way for the rise of Social Credit Using Calgary as a model *The Limits of Labour* reasserts the need to place class formation at the heart of the development of western Canada and provides an historical context to the renewed struggle of labour for social justice in the 1990s

**Labour Goes to War** Wendy Cuthbertson, 2012 During the Second World War the Congress of Industrial Organizations in Canada grew from a handful of members to more than a quarter million and from political insignificance to a position of influence in the emergence of the welfare state What was it about the good war that brought about this phenomenal growth *Labour Goes to War* analyzes the organizing strategies of the CIO during the war to show that both cultural and economic forces were at work Labour shortages gave workers greater power in the workplace and increased their militancy But workers' patriotism their ties to those on active service and allegiance to the people's war also contributed to the CIO's growth and to what it claimed for workers Drawing on a wealth of archival material Wendy Cuthbertson illuminates this complex wartime context She also shows how the complex often contradictory motives of workers during this period left the Canadian labour movement with an ambivalent progressive conservative legacy

**Canadian Political Economy** Heather Whiteside, 2020-11-19 Engaging with themes of conflict change and crisis this book reinvigorates the distinct interdisciplinary field of Canadian political economy

**Canada's Greatest Wartime Muddle** Michael D. Stevenson, 2001-12-13 To determine the government's commitment to a comprehensive mobilization strategy Stevenson considers the effect of NSS policies on eight significant sectors of the Canadian population Native Canadians university students war industry workers coal miners longshoremen meatpackers hospital nurses and textile workers These case studies show that mobilization officials achieved only a limited number of their regulatory goals and that Ottawa's attempt to organize and allocate the nation's military and civilian human resources on a rational orderly and efficient scale was largely ineffective This detailed assessment of the effect of NSS activities on a broad cross section of Canadian society provides a fresh perspective on the domestic impact of the Second World War It will appeal to a wide range of readers interested in Canada's economic military social and political history

*The Canadian Labour Movement* Craig Heron, Charles Smith, 2020-06-01 In *The Canadian Labour Movement* historian Craig Heron and political scientist Charles Smith tell the story of Canada's workers from the midnineteenth century through to today painting a vivid picture of key developments

such as the birth of craft unionism the breakthroughs of the fifties and sixties and the setbacks of the early twenty first century The fourth edition of this book has been completely updated with a substantial new chapter that covers the period from the great recession of 2008 through to 2020 In this chapter Smith describes the fallout of the financial crisis how Stephen Harper s government restricted labour rights the rise of the gig economy and precarious work and the continued de industrialization in the private sector These pressures contributed to fracturing the movement as when Unifor the largest private sector union split from the Canadian Labour Congress the established house of labour Through it all rank and file union members have fought for better conditions for all workers including through campaigns like the fight for a 15 minimum wage The Canadian Labour Movement is the definitive book for anyone interested in understanding the origins achievements and challenges of the labour and social justice movements in Canada      **Smiling Down the Line** Bob Russell,2009-01-01

**Smiling Down the Line** theorizes call centre work as info service employment and looks at the effects of ever changing technologies on service work its associated skills and the ways in which it is managed      **Marxism and Historical Practice (Vol. I)** Bryan D. Palmer,2015-09-01 The two volumes of Marxism and Historical Practice bring together essays written by one of the major Marxist historians of the last fifty years The pieces collected in Volume I Interpretive Essays on Class Formation and Class Struggle offer a stimulating empirically grounded survey of North American collective behaviour popular mobilizations and social struggles ranging from a rich discussion of ritualistic protest like the charivari through the rise of the Knights of Labor in the 1880s to campaigns against neoliberal labour reform in British Columbia in the early 1980s What emerges is Palmer s sustained reflection on long standing interpretive historical problems of class formation the dynamics of social change and how popular social movements arise and relate to law the state and existing cultural contexts

centrepiece was Mackenzie King's Industrial Disputes Investigation Act of 1907. This period was marked by coercion and compromise as workers organized and fought to extend their rights against the profit-oriented owners of capital while the state struggled to define a labour regime that contained industrial conflict. The authors then trace the conflicts that eventually produced the industrial pluralism that Canadians have known in more recent years. By 1948 a detailed set of legal rules and procedures had evolved and achieved a hegemonic status that no prior legal regime had even approached. This regime has become so central to our everyday thinking about labour relations that one might be forgiven for thinking that everything that came earlier was truly before the law. But as *Labour Before the Law* demonstrates, workers who acted collectively prior to 1948 often found themselves before the law, whether appearing before a magistrate charged with causing a disturbance, facing a superior court judge to oppose an injunction, or in front of a board appointed pursuant to a statutory scheme that was investigating a labour dispute and making recommendations for its resolution. The book is simultaneously a history of law aspects of the state, trade unions and labouring people and their interaction within the broad and shifting terrain of political economy. The authors are attentive to regional differences and sectoral divergences and they attempt to address the fragmentation of class experience.
