*Backhouses of the North* Muriel E. Newton-White, 1975      **Backhouses of the North**, 1972      Annual Indexes to the Services of Heirs in Scotland Scotland, 1880      **Who's Who of Canadian Women, 1999-2000** Gillian Holmes, 1999-06-01

**Barclays** Margaret Ackrill, Leslie Hannah, 2001-10-25. This is a history of one of the world's most famous financial institutions from its foundation as a private Quaker partnership in 1690 to 1996. Over the course of its history, Barclays has been the largest bank in the world in Africa and in Britain. A pioneer in international trade finance and large-scale branch banking, Barclays was responsible for the first automated teller machine in the world. This history of innovation and expansion is a microcosm of the successes and failures of corporate strategies in banking and is especially illuminating on the twentieth century. Extensively illustrated and accessibly written, the book is deliberately designed to appeal to readers beyond those with a specialist professional interest in financial history. It makes a major contribution to the economic and social history of modern Britain and the contemporary business world.

**Materijali za istorijata na Makedonija**, 1982      Fighting Slavery in the Caribbean Luis Martinez-Fernandez, 2015-03-04. This volume presents a social history of life in mid-19th century Cuba as experienced by George Backhouse and his wife Grace, who served on the British Havana Mixed Commission for the Suppression of the Slave Trade. Documented with extracts from the Backhouse's correspondence, diaries, and other contemporary papers, Martinez-Fernandez paints a detailed picture of the Cuban slave trade, its role in the sugar industry, and the interrelated contradictions within Cuba's economy, society, and politics. The Backhouse story provides additional insights into important aspects of life in the male city of Havana: social antagonisms between Britons and North Americans; interactions with European social circles; religious tension; and the reality of tropical disease. Drama is added to the narrative in the author's description of the tragic and mysterious murder of George Backhouse in August 1855, possibly the result of a slave traders' conspiracy.

**The History of Sweets** Paul Chrystal, 2021-06-30. A chronicle of confectionaries throughout the centuries, from honeycombs to Haribo. There is much to get your teeth into within these pages. Best of British Magazine. We all remember sweets: objects of pure delight and the endless cause of squabbles, fights, even hoarding, and swapping a chance to gorge, suck, crunch, and chew. But they're by no means just a nostalgic thing of days past, and it's not only children who love

and devour sweets gobstoppers bulls eyes licorice seaside rock bubble gum and the like grown ups of all ages are partial to a good humbug or a lemon sherbet or two in the car annoyingly at the cinema or while out walking wherever and whenever the sweet is there the sweet delivers and the sweet rarely disappoints Sweets then are ubiquitous and enduring they cross age culture and gender boundaries and they have been around it seems forever This book tells the story of sweets from their primitive beginnings to their place today as a billion pound commodity with its sophisticated seductive packaging and sales advertising and marketing It explores the people s favorites past and present but there is also a dark side to sweets and this book does not shy away from the deleterious effect on health as manifested in obesity tooth decay and diabetes It delves into sweet and candy shops in supermarkets and markets retro sweet shops fudge makers vintage sweets online sweet manufacturing chocolate the grey line between sweets and medicines ancient and modern It goes round the world unwrapping sweets from different countries and cultures and it examines how immigrants from all nations have changed our own sweet world
