Backpacks, Boots and Baguettes Simon Calder, Mick Webb, 2004 Traces the authors trek along the G10 the French Ramblers Federation s preferred route through the Pyrenees a trail that can be both treacherous and exhilarating

Backpacks, Boots and Baguettes Mick Webb, Simon Calder, 2012-02-29 High in the Pyrenees a full day s hike from any trappings of civilisation is no place for a human to be unless you are searching for the time of your life This is the roof of a mountain range that stretches from the Atlantic to the Mediterranean coasts and provides some of the most breathtakingly beautiful landscape to be found in Europe It is also the place for hikers to get soaked roasted or scared out of their wits not by the endangered brown bear but by rights of way such as the precipitous Chemin de la Mature hacked out of a cliff by 18th century convicts and is still used in the 21st century to punish anyone fearful of heights such as TV presenter Simon Calder Luckily his friend and walking companion Mick Webb has a complementary range of phobias such as being confined with 54 fellow hikers and their socks in a refuge two miles above sea level Together they step out to conquer the roof of the Pyenees following the time honoured tradition of walking the GR10 the preferred route of the at times eccentric French Ramblers Federation Testing a hiker s emotional resilience as keenly as his walking boots the GR10 is not for the faint hearted Weaving an occasionally treacherous always exhilarating trajectory through a landscape of strong traditions and strange animals Calder and Webb narrate an eventful and humorous travelogue With their backpacks boots and baguettes they explore the region meeting the people savouring the views and the wines and aguing about how best to cope with the constant surprises and challenges of magnificent mountains They also very quickly learn that la loi de l emmerdement maximum means sod s law in French

*Bear Mountain* Mick Webb, In the Pyrenees contact between man and bear is rare There are just over twenty brown bears roaming the vast mountain range But for centuries bears have loomed large in folklore and tradition represented in cave paintings and both revered and feared in today s annual festivals *Bear Mountain* is a journey into man s relationship with bears and the hold these animals have on our imaginations However bears are not viewed with universal affection Efforts to replenish the brown bear population have been met with violent protests Pyrenean farmers fighting to sustain a traditional way of life long since rendered uneconomical view the bears as scapegoats for their troubles Caught in midst of angry battles as change and modernity sweep through local communities the bears are decried victimised and hunted Set amidst the Pyrenean peaks *Bear Mountain* is a beautifully written documentary account of the author s search for an elusive brown bear named Balou From tracking bears with the Bear Team witnessing the madcap fetes in the bears honour and exploring the history of man and bear *Bear Mountain* scours the emotional response that bears inspire and takes us close to the heart of our connection to the natural world
