Backstory Inside The Business Of News:

TV News Anchors and Journalistic Tradition Kimberly Meltzer, 2010 Through the lens of TV news anchors this book examines the impact that television news has had on traditional journalistic standards and practices It provides a historical overview of the impact they have had on American journalism uncovering the changing values codes of behavior and boundaries of the journalistic community book cover The Press Geneva Overholser, Kathleen Hall Jamieson, 2005 With the guidance of editors Geneva Overholser and Kathleen Hall Jamieson this superb collection of essays written by the nation s leading authorities on journalism illuminates the role of the press in a democracy investigating alternative models used throughout world history to better understand how the American press has evolved into what it is today The book also examines the history identity roles and future of the American press with an emphasis on topics of concern to both practitioners and consumers of American media That's the Way It Is Charles L. Ponce de Leon, 2015-05-04 Ever since Newton Minow taught us sophisticates to bemoan the descent of television into a vast wasteland the dyspeptic chorus of jeremiahs who insist that television news in particular has gone from gold to dross gets noisier and noisier Charles Ponce de Leon says here in effect that this is misleading if not simply fatuous He argues in this well paced lively readable book that TV news has changed in response to broader changes in the TV industry and American culture It is pointless to bewail its decline That s the Way It Is gives us the very first history of American television news spanning more than six decades from Camel News Caravan to Countdown with Keith Oberman and The Daily Show Starting in the latter 1940s television news featured a succession of broadcasters who became household names even presences Eric Sevareid Walter Cronkite David Brinkley Peter Jennings Brian Williams Katie Couric and with cable expansion people like Glenn Beck Jon Stewart and Bill O Reilly But behind the scenes the parallel story is just as interesting involving executives producers and journalists who were responsible for the field s most important innovations Included with mainstream network news programs is an engaging treatment of news magazines like 60 Minutes and 20/20 as well as morning news shows like Today and Good Morning America Ponce de Leon gives ample attention to the establishment of cable networks CNN and the later competitors Fox News and MSNBC mixing in colorful anecdotes about the likes of Roger Ailes and Roone Arledge Frothy features and other kinds of entertainment have been part and parcel of TV news from the start viewer preferences have always played a role in the evolution of programming although the disintegration of a national culture since the 1970s means that most of us no longer follow the news as a civic obligation Throughout Ponce de Leon places his history in a broader cultural context emphasizing tensions between the public service mission of TV news and the quest for profitability and broad appeal **Everyman News** Michele Weldon, 2008 Examines how newspapers have changed over the past few years becoming story papers Comparing 850 stories story approaches and unofficial sourcing in twenty American newspapers from 2001 and 2004 Weldon reveals a shift toward features over hard news along with an increase in anecdotal or humanistic approaches to all stories Provided by

The War in Iraq and Why the Media Failed Us David Dudge, 2006-07-30 Polls show that a sizeable portion of the American population believes that troops found WMD in Iraq and that Saddam Hussein was somehow responsible for the attacks of September 11 Even after the 9 11 Commission Report and numerous other reports have concluded that our intelligence was flawed people in the freest nation on earth continue to be misinformed about something that could not be more vital to understand the reasons for sending troops into harm s way This insightful analysis argues that the media should have done a better job of performing its traditional role of skeptic and watchdog and it examines what went wrong There are of course many people whose support for going to war in Iraq was not contingent on the existence of WMD or a connection to al Qaeda But many others based their support for the war on

misinformation Dudge explores why the media did not aggressively investigate the claims made by the administration and intelligence agencies in short why they did not do their job to fully inform the citizenry to the best of their ability He examines pressures from the Bush administration pressures from corporate consolidation of media ownership patriotism and self censorship and other factors He concludes with recommendations for ways in which the media can improve their reporting on government

Mister Pulitzer and the Spider Kevin G Barnhurst, 2016-06-15 A spidery network of mobile online media has supposedly changed people places time and their meanings A prime case is the news Digital webs seem to have trapped legacy media killing off newspapers and journalists jobs Did news businesses and careers fall prey to the digital Spider To solve the mystery Kevin Barnhurst spent thirty years studying news going back to the realism of the 1800s The usual suspects technology business competition and the pursuit of scoops are only partly to blame for the fate of news The main culprit is modernism from the Mister Pulitzer era which transformed news into an ideology called journalism News is no longer what audiences or experts imagine Stories have grown much longer over the past century and now include fewer events locations and human beings Background and context rule instead News producers adopted modernism to explain the world without recognizing how modernist ideas influence the knowledge they produce When webs of networked connectivity sparked a resurgence in realist stories legacy news stuck to

big picture analysis that can alienate audience members accustomed to digital briefs 24/7 Politics Kathryn Cramer Brownell, 2025-11-04 How cable television upended American political life in the pursuit of profits and influence As television began to overtake the political landscape in the 1960s network broadcast companies bolstered by powerful lobbying interests dominated screens across the nation Yet over the next three decades the expansion of a different technology cable changed all of this 24 7 Politics tells the story of how the cable industry worked with political leaders to create an entirely new approach to television one that tethered politics to profits and divided and distracted Americans by feeding their appetite for entertainment frequently at the expense of fostering responsible citizenship In this timely and provocative book Kathryn Cramer Brownell argues that cable television itself is not to blame for today s rampant polarization and scandal politics the intentional restructuring of television as a political institution is She describes how cable innovations from C SPAN coverage of congressional debates in the 1980s to MTV s foray into presidential politics in the 1990s took on network broadcasting using market forces giving rise to a more decentralized media world Brownell shows how cable became an unstoppable medium for political communication that prioritized cult followings and loyalty to individual brands fundamentally reshaped party politics and in the process sowed the seeds of democratic upheaval 24 7 Politics reveals how cable TV created new possibilities for antiestablishment voices and opened a pathway to political prominence for seemingly unlikely figures like Donald Trump by playing to narrow audiences and cultivating division instead of common ground
