Backward Glances Wendy Haskett, 2005-10-01 **Backward Glances** John Gielgud, 1993 Backward Glances; Or, Some Personal Recollections James Hedderwick, 1891 *Backward Glances* Sir John Gielgud, 1990 *Collaborative Form* Thomas Jensen Hines, 1991 Collaborative Form attempts to show the nature and limits of works of art that are made up of two or more artistic forms The first task of this book is to analyze and interpret a set of such combinations Each chapter treats one collaborative work and attempts to show that the principles of collaboration are the same whether the components are poetry and graphic works as in *Lettera Amorosa* by Rene Char and George Braque poetry and music as in *Herzgewachse* by Maurice Maeterlinck and Arnold Schoenberg or more complex sets that include painting music dance lighting and drama as in *Der gelbe Klang* by Wassily Kandinsky *Morder Hoffnung der Frauen* by Oskar Kokoschka and *Triad* by Alwin Nikolais Hines breaks down disciplinary barriers and then emphasizes the effects of the interactions between the arts The first step in methodology is that of refusing to make a priori commitments to the critical methodologies of the arts involved Each art is treated from its own perspective and each interpretation attends to interactions of the arts rather than to the contribution of any one art Once the collaborative works are examined the book shows that such works are similar to other art forms They obey the laws of temporal necessity non addition multiple interpretation and unity that any poem painting or musical composition might be said to obey Unlike other arts though collaborative forms are unique examples of the combinative effects of the arts In the process of interpreting individual works and attempting to summarize this form we are forced to see beyond the conventions of the constituent arts *Performance Metrics for Assessing Driver Distraction* Gary L Rupp, 2010-12-06 This book focuses on the study of secondary task demands imposed by in vehicle devices on the driver while driving It provides a mechanism for researchers to evaluate how in vehicle devices such as navigation systems as well as other devices such as cell phones affect driver distraction and impact safety This book which features the work presented by international experts at the 4th International Driver Metrics Workshop in June 2008 offers a summary of the current state of driver metrics research Edited by workshop moderator Dr Gary L Rupp the book introduces vital information to support the design of in vehicle information and communication systems IVIS Topics covered include Driver object and event detection Peripheral detection tasks PDT Tactile based detection tasks TDT Modified Sternberg method for assessing visual and cognitive load of in vehicle tasks Modified Sternberg method for assessing peripheral detection task and lane change tests The relationship between performance metrics and crash risk Characterizing driver behaviors observed in naturalist driving studies Developing metrics from lane change test studies **Backward glances: A backward glance o'er travel'd roads and two contributory essays, hitherto uncollected, ed** Walt Whitman, John Alford Stevenson, *Backward Glances; Reminiscences of an Old New-Yorker...* Thomas. Stevenson, 2018-01-09 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press s distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas **Backward Glances** Richard Rowe, 1874 **The Path to a Modern South** Walter L. Buenger, 2010-06-28 The forces that turned Northeast Texas from a poverty stricken region into a more economically prosperous area Winner Texas State Historical Association Coral H Tullis Memorial Award for best book on Texas history 2001 Federal New Deal programs of the 1930s and World War II are often credited for transforming the South including Texas from a poverty stricken region mired in Confederate mythology into a more modern and economically prosperous part of the United States By contrast this history of Northeast Texas one of the most culturally southern areas of the state offers persuasive evidence

that political economic and social modernization began long before the 1930s and prepared Texans to take advantage of the opportunities presented by the New Deal and World War II Walter L Buenger draws on extensive primary research to tell the story of change in Northeast Texas from 1887 to 1930 Moving beyond previous more narrowly focused studies of the South he traces and interconnects the significant changes that occurred in politics race relations business and the economy and women s roles He also reveals how altered memories of the past and the emergence of a stronger identification with Texas history affected all facets of life in Northeast Texas Backward Glances Walt Whitman,1968 **Backward Glances** Howard C.
