Odhner Longstaff,2017-08-02 The book is the story of a young American girl living in South Africa during the early years of Apartheid 1948-1960 One of six children of a Swedenborgian minister who was sent to South Africa to establish a theological school for Africans the author reaches back into this unique time and place in an effort to rediscover the culture that influenced her own adult attitudes Rather than following a strictly chronological format the story is laid out in a series of verbal snapshots supported by photographs Family life experienced through the eyes of a child living in a complex environment contrasts with the lives of those who were impacted by the institutionalized racism of apartheid Examples of the Acts of Apartheid at the end of each chapter include news articles interviews and commentary Deep childhood fears of some unnamed threat are represented by home invasions wildfires and the cry of a hyena in the mountains The mountains are dangerous they present a great barrier but they can be conquered After returning permanently to America as a teenager through a confusing and sometimes painful process of discussion and observation the author uncovers those artifacts of the past that inform her place in the world today

Aircraft Performance Theory for Pilots Peter J. Swatton, 2008-04-30. The new European Joint Aviation Requirements (JARs) lay down rules governing the minimum levels of performance which must be attained by every type of public transport aeroplane. These rules cover matters such as weight, altitude, and temperature, take off and landing distance, cruise flight level, and speed, and descent angle and rate. The subject of aircraft performance forms an important part of all JAR Flight Crew Licensing examinations for commercial and airline transport pilot licences, and this book provides a clear but authoritative text on a difficult topic. It will also be of interest to commercial pilots needing to upgrade their annual ground test to JAR standards, and to flight planners, operations controllers, and airport operators.
