Truant,Sean Platt,2024-07-26 This first episode is a FREE series starter for the sci fi world of The Beam a dystopian

technothriller full of intrigue and conspiracies and the unseen perils of our hyperconnected world This chilling intricately plotted cyberpunk series is set in a futuristic dystopia where politics and technology have widened the gap between haves and have nots and where power means everything All of humanity is connected to The Beam and to the lie In the year 2097 the only stable nation is the North American Union a cyberpunk world exploding with new technologies and ruled by two political parties The NAU allows people to choose either the Enterprise Party sink or swim effort and luck determine whether members prosper or starve or the Directorate where members are guaranteed safety but can never rise above their station And above it all is The Beam an AI built computer network that serves every whim and connects citizens through implants and biological add ons The Beam anticipates every need and has created a world within the world It permeates everything And is everywhere But the NAU s power is shifting New powers are making their moves while others hang in the balance Behind it all a shadowy group is pulling strings and guiding the upcoming election exactly where they want it to go The Beam is coming alive immersion is as real as reality If the NAU s power goes unchecked the actions of a shadowy few will shape the fate of millions forever This series is one of the best from these authors which is saying a lot because Sean Platt Johnny B Truant David Wright any combination of the three are by far my favorite authors The Beam is an extremely complex world with complex characters Matt Browner I d have to say this series has them all beat because all the technologies or magic if you will in this series are better developed the characters are more involved and the story lines are better woven And I m not talking about twists and turns in the plot that require suspending disbelief yeah right or leave you confused as to what happened It s pretty amazing and thought provoking Burton Kent Sci fi fans of William Gibson and Neal Stephenson will love the visionary cyberpunk world of The Beam where politics plots conspiracies and backstabbing matter as much as future itself

**Loyal to the Sky (Volume 2 of 2) (EasyRead Super Large 24pt Edition)** ,      *X Films* Alex Cox,2008-09-01

Filmmaker Alex Cox's thoughtful autobiography examines his craft and influences as well as providing his insights into many of his favorite films. Sometimes called a radical, Cox is a quintessential auteur as well as an internationally focused insightful critic and writer whose passion for film has gripped him since childhood. In addition to being a captivating look into Cox's process, this book also encourages and instructs would-be independent filmmakers guiding the next generation of film pioneers through the arduous journey of creation. Cox weaves his own confessions with his notes to the new guard, including thoughts on new forms of digital distribution and his radical views on intellectual property; the result is a readable, startling treatise on both the film innovations of today and the thrilling potential of future filmmaking.

**Uri** Dana Archer, I never wanted a mate. I'm an immortal. Royal shifter. A dedicated detective. My blind twin's eyes. But she won't leave me alone. I've scrutinized every section in my police handbook. There's no rule preventing agents from getting involved. Doesn't matter that Lyla is my mentee. I'm fair game. And my twin snitched on me. Told Lyla the truth. Now she wants me to claim her as my eternal mate. Saving her from one dangerous situation after another is more important. But resisting this beautiful brave woman who even I can admit is perfect for me is impossible. And when our enemy makes Lyla the prize in a deadly game, no rule or law or honor-bound oath will keep me from my fated mate. Lyla is mine. Until the end of time. Uri is the closed door.
