The Public Service Review , 1888 [The Fraser River Gold Rush of 1858](#) , 2001 This book is about the gold rush which took place in the Fraser River and vicinity in 1858 which was within the British Possession and the Washington Territory now called British Columbia and the State of Washington This book covers the Fraser River Gold Rush from its infancy to what could be considered its conclusion as viewed by the California newspapers This book is somewhat unusual as it tells the chronological history of the gold rush as it unfolded and progressed by using newspaper articles from that era The news articles themselves were in most cases letters which had been written by many of the miners or correspondents who went to the area either to dig for gold or report on what was happening Many of the letters capture the experiences of the writer and his ordeal in trying to reach the gold fields as well as the latest news of the day Over 25% of the California miners would go to this place called the Fraser River not

believing in the perils and danger that awaited them until actually faced by them As some would say crossing the plains was nothing in comparison to trying to reach the gold fields of the Fraser River and vicinity This book readily depicts their reason for saying so **Marketing and Distribution of Western Muskmelons in 1915** Otto William Schleussner, Clarence William Kitchen, 1919
