Bad Attitude The Processed World Anthology:

Bad Attitude Chris Carlsson, Mark Leger, 1990-07-17 Bad Attitude is a collection of writings and graphics from the extraordinary Processed Word magazine. Dedicated to giving voice to the benumbed foot soldiers of the information age, it contains blistering first-hand accounts of life at the bottom of the ladder in big banks, defense contractors, computer manufacturers, and food processing factories. In these pages, the service economy and the new high-tech jobs often touted in glowing terms by the mainstream media are exposed for their quotidian banality, their essential uselessness, and the catch-22 absurdity that permeates all corporate life under late capitalism. Moving at bike messenger speed between offices, Bad Attitude describes the hazards of the office computer and how to sabotage it, mutant culture in Silicon Valley, the new transiency undercutting links at work, the connections between time and money, bosses and secretaries, resistance and resignation. It provides a unique basis for new theoretical developments in the struggle for human liberation, and above all, it assures the thousands of isolated rebels mired in dead-end and deadening jobs that they are not alone. The spark of revolt can and must be nurtured until the next wave comes along.

Time and the Literary Karen Newman, Jay Clayton, Marianne Hirsch, 2013-09-13 Time and the Literary the immediacy of information technology has supposedly annihilated both. Email, cell phones, satellite broadcasting seem to have ended the long-standing tradition of encoding our experience of time through writing. Paul de Man's seminal essay Literary History and Literary Modernity and newly commissioned essays on everything from the human genome to grammatical tenses argue, however, that the literary constantly reconstructs our understanding of time. From eleventh-century France or a science-fiction future, Time and the Literary shows how these two concepts have been and will continue to influence each other.

World Bank Literature Amitava Kumar, 2003 World Bank Literature is more than a concept; it is a provocation, a call to arms. It is intended to prompt questions about each word to probe globalization, political economy, and the role of literary and cultural studies. As asserted in this major work, it signals a radical rewriting of academic debates, a rigorous analysis of the World Bank and the International Monetary Fund (IMF), and a consideration of literature that deals with new global realities. Made more relevant than ever by momentous antiglobalization demonstrations in Seattle and Genoa, World Bank Literature brings together essays by a distinguished group of economists, cultural and literary critics, social scientists, and public policy analysts to ask how to understand the influence of the World Bank/IMF on global economic power relations and cultural production. The authors attack this question in myriad ways, examining World Bank/IMF documents as literature, their impact on developing nations, the relationship between literature and globalization, the connection between the academy and the global economy, and the emergence of coalitions confronting the new power. World Bank Literature shows, above all, the multifarious and sometimes nefarious ways that abstract academic debates play themselves out concretely in social policy and cultural mores that reinforce traditional power structures.
