

WHO SAYS BAD MEDICINE ISN'T GOOD BUSINESS!

Steve Guttenberg (COCOON and POLICE ACADEMY), Alan Arkin (THE INLAWS), Julie Hagerty (AIRPLANE) and Bill Macy (from TV's MAUDE) star in this zany, oddball comedy about a med school "south of the border" for students who couldn't quite make the grade in the USA.

In a country that's already behind the times, these wackos are setting medicine back a thousand years!

BAD MEDICINE is fresh, funny and frantic with sight gags and one-liners that's sure to cure any viewers case of the blahs!

Only from Playhouse Video.

Bad Medicine Milton Silverman, Mia Lydecker, Philip Lee, 1992-05-01 The pharmaceutical industry has long and vehemently insisted that it has the willingness the dedication and the ability to police itself to insure that the public will not be unnecessarily harmed or defrauded As the record shows with painful clarity however virtually no industry or professional group has ever adequately policed itself and the pharmaceutical industry is no exception Where the most flagrant abuses have been exposed and corrected major credit

must probably be divided among the media that publicized the situation consumer groups that applied pressure government officials who took actions that were often unpopular and individual members of the pharmaceutical industry who had the courage to face up to their social responsibilities In this book the authors turn their attention to what happened in Third World countries when because of worldwide pressures the multinational drug companies largely corrected their notorious abuses On the basis of painstaking research much of it conducted in a great many Third World countries the authors conclude that a plethora of small local firms have filled the dishonest sales channels vacated by the multinationals The authors show in great detail how local drug firms in the Third World have taken advantage of loose regulatory practices and unscrupulous behavior on the part of regional and national health care professionals to promote the sale of dangerous or worthless drugs as remedies for diseases for which they were never intended Warnings of bad side effects are omitted from promotional literature drugs are sold that have not had proper trials and drug firms have often bribed government officials doctors and hospital administrators in order to gain favorable treatment in the importation and sale of their products Among the many topics treated in this book are the controversy over inexpensive generic drugs including disclosures of fraud and bribery in the U S Food and Drug Administration the actions of consumer groups and the key role of government in preventing abuses by drug firms The authors describe a remarkable attempt in Bangladesh one of the poorest of all the developing countries to develop a high quality local drug industry They also present as case histories reports on three extremely important drug products or groups the dipyrone for control of pain and fever high dosage estrogen progesterone hormone products for use in pregnancy tests and clioquinol or Enterovioform for treatment of diarrhea all of which were or still are centers of worldwide heated controversy

BAD MEDICINE Keith G. Laufenberg, 2014-03-02 *Bad Medicine* is another collection of short stories by writer Keith G Laufenberg that brings the reality of life in America that of a nation where virtually everything including health care is available for profit only and must be bought paid for before delivery Every working and non working American disabled either by sickness or poverty has lived through this and to this very day in 2014 continue to live through it These stories graphically illustrate why it is the Capitalist System itself that harbors institutions that lie rob cheat and steal and all in the name of the very God that they all worship profit It shows why they the the doctors lawyers politicians and insurance companies have a strangle hold on America which can only end in the country experiencing a depression a bankruptcy or both or a revolution These stories will keep you reading long into the day or night as you root for the underdog even though you know he may not win this time around
