

# RURAL SOCIOLOGY

- Rural Sociology is the science of rural society. According to Desai (1969), it is the study of sociological life in rural settings to discover their conditions and tendencies and to formulate principles of progress.
- Society is the web of social relationships. A society is a collection of individuals united by certain relations and modes of behaviour which mark them off others who do not enter into these relations or who differ from them in behaviour (Ginsberg).
- **Major components of society-**
  - 1. A group of people
  - 2. Lived together long enough to become organized
  - 3. Sharing common interests and values (likeness)
  - 4. Sharing common culture
  - 5. Inter-dependence and

**The Small Community** Arthur E. Morgan, 2017-07-28 In this age of large cities mass culture and ever more massive events people must struggle against an overwhelming crowd of their own creations to maintain human integrity In this manual for human survival Arthur E Morgan offers a solution peaceful existence in the small primary community where more easily than anywhere else people can find a way to live well Ultimately striving to show that the small community is the lifeblood of civilization this volume examines the political organization membership economics health and ethics characteristics of small communities Like Rousseau before him Morgan observes that we have less control over our affairs than in the past In increasing our control of the natural environment human beings have built a social environment so out of scale that it becomes nearly impossible for people to maintain balance The struggle now is less with the natural order than with the social order and preserving human integrity against the plethora of our own creations is the core problem The need to rediscover elementary forms of human existence has been accelerated by the efficiencies of centralized control and mass persuasion In the face of this small communities or intimate groups become the primary pattern in which human beings must live if the good life is to be a realistic goal The timely nature of this volume has grown as the electronic displaces the mechanical as a moral rival to human community

**Philosophical Foundations of Quality of Life** Alex C.

Michalos, 2017-06-14 This first volume has as its main focus the philosophical foundations of Michalos work and describes it in the broad context of the study of logic the philosophy of social sciences and a general theory of value After distinguishing things that have value from the value that things might have it describes the foundations of a pragmatic theory of value This theory plays a key role in the author's research on the quality of life and connects his empirical research to the philosophical tradition of the American pragmatists William James Ralph Barton Perry John Dewey and Clarence Irving Lewis The volume addresses various aspects and issues concerning decision making including decision procedures used in committees used for assessing the acceptability of scientific theories and new technologies procedures for a science court ethical issues involved in the formation of beliefs some limitations of classical economists alleged postulates of rational preference and the importance of analytic guides to decision making Finally it describes the organization of the Social Sciences Federation of Canada and a formal accounting system for scientific research

**Weber and Toennies** Joseph B. Maier, 2017-09-08 This collection of selected essays by Werner J Cahnman brings together out of scattered dispersion his writings about Max Weber Ferdinand Toennies and historical sociology The great theoretical range and depth of his intellect and mastery of sociological thinking is apparent as he discusses the impact of romanticism on modern thought and how Weber and Toennies both analyzed and reacted to modernity Cahnman places Weber 1864 1920 the dominant figure in twentieth century sociology in the midst of the methodological controversies so characteristic of contemporary social

science and he fully discusses the overarching importance of Weberian ideal type theory Although less well known than Weber Toennies 1855 1936 was also a sociologist of the first rank He is best remembered for his enormously influential twin concepts Gemeinschaft and Gesellschaft which contributed to our understanding of the historical and sociological basis for the change from premodern to modern societies The essays in this volume establish Toennies intellectual connections to Karl Marx Max Weber Emile Durkheim and Herbert Spencer and clarify his influence upon American sociology Cahnman stood against strict separations between history and sociology and his essays are all informed by a wonderful admixture of the theoretical and the concrete They demonstrate how a genuine historical sociology not unlike that of Weber and Toennies can find and explain linkages between seemingly disparate events spanning time and place This volume will be of interest to sociologists political scientists and intellectual historians      **Rural Social Change in Poland** ,1976      Home Science Extension Education and Rural Development Sandhya Rani Mohanty,2017-03 This textbook is written for undergraduate and postgraduate students of Extension Education at Home Science Colleges It shall serve as a reference book for Extension students of Agriculture Veterinary Forestry Fisheries and Basic Science at Universities Colleges and Institutes It shall as well serve as a handbook for Government Departments Non Government Organizations Rural Banks and Cooperatives Krishi Vigyan Kendra etc to support them in extension work The meaning process and evolution of extension and extension systems from India s pre independence era to the present era are described in this book as well as the different extension teaching methods and teaching aids used while extending information at villages The book also comprehends the relationship between Home Science education and extension systems familiarizing with the structural and functional concepts of rural society The concept use importance and limitations of each of the extension teaching methods are important to know for extension workers so that they can use them efficiently However these course contents are primarily meant for the use of student communities teaching and research fraternities of Home Science Agricultural and allied Sciences all over the globe in general and India in particular      *Proceedings of the Annual Convention* Association of State Universities and Land-Grant Colleges,1962      **Introductory Rural Sociology** J.B.
