Basic Mechanics Of Solar Activity:

Basic Mechanisms of Solar Activity V. Bumba, J. Kleczek, 2012-12-06 Our first attempt to organize a Symposium on solar activity was made at the IAO General Assembly in Brighton 1970 There at the session of Commission 10 we proposed to organize a Symposium which would stress the observational aspects of solar activity It was our hope that such a Symposium might stimulate studies of those important problems in solar physics which for a long time had been neglected in overall scientific discussion Although a provisional date for the Symposium was then decided it did not take place to avoid overlapping with other IAO activities At the session of Commission 10 in Sydney on the occasion of the XVth IAO General Assembly in 1973 we repeated our proposal and forwarded the invitation of the Czechoslovak Academy of Sciences to organize the Symposium in Prague Both were accepted During the discussions about the programme of the Symposium enthusiastically promoted by the late president of Commission 10 Prof K O Kiepenheuer it was decided to change slightly its subject The theoretical problems were stressed and the majority of the Scientific Organizing Committee agreed not to deal with short lived phenomena of the solar activity or with individual active regions Symposium No 71 was held in Prague from August 25 to August 29 1975 Its Organizing Committee consisted of V Bumba Chairman W Deinzer R G Giovanelli R Howard K O Kiepenheuer M Kopecky T Krause M Kuperus G *Government-wide Index to Federal Research & Development Reports*, 1966 *Astrophysical Formulae* Kenneth R.
