Dance Partnering Basics Brandon Whited, 2024-01-02 Dance Partnering Basics Practical Skills and Inclusive Pedagogy With HKPropel Access presents easy to implement technique based partnering instruction for dancers of all ages The exercises and techniques which are broken

down into parts and presented in a skill progression from beginner to advanced can be applied to a variety of dance forms. The book offers a plethora of tools to help dance educators in providing expert partnering instruction: 18 illustrated exercises that teach techniques, mechanics, and individual partnered skills; each exercise includes additional variations and explorations; Tips for developing a partnering component and integrating it into an existing dance program or curriculum; Related online materials delivered via HKPropel including over 40 video clips demonstrating partnering exercises; vocabulary questions for discussion and reflection; and assessments and rubrics to help assess student progress. Inclusive Nongendered Approach: The text uses an inclusive nongendered approach to dance partnering as opposed to the traditional male and female roles. Instead of using man/woman labels in the instructions, author Brandon Whited uses terminology such as partner A, partner B, leader, follower, and supported partner/supportive partner. This approach gives a broad appeal to dance partnering. Book Contents: *Dance Partnering Basics* is organized around the foundational elements of dance: time, weight, energy, and flow and space. Chapter 1 provides a concise history and explanation of dance partnering forms and considers the broad implications for the practice as a vital component of dance education and training. Chapter 2 focuses on class planning, course development, foundational concepts, and teaching techniques. It also offers foundational skills and exercises. Chapter 3 delves into the body as an instrument, discussing biomechanics, safety, cross training, nutrition, wellness, and self care. It also offers more advanced skills building off of those offered in the previous chapter. In chapter 4, readers explore the relationship between partnership and creativity, digging into tactics, exercises, and choreographic prompts that can help unlock creativity. It contains the exercises with the most advanced skills and partnership principles. And finally, chapter 5 outlines dance education philosophies which include establishing a safe space, a supportive environment, and a community within the classroom and beyond. *Dance Partnering Basics* is a highly practical resource for dance educators and teachers across all levels from K-12 to higher education as well as private studios. It is an ideal text to teach partnering regardless of the students' ages, their skill level, or the dance genre. With its unique inclusive approach, this book is a welcome and much needed addition to the dance field. Perspectives on partnership Horton, D., Prain, G., Thiele, G., 2009-11-30. This paper reports on a wide ranging review of the literature on partnerships and other closely related forms of collaboration. It aims to contribute to knowledge of the actual and potential roles of partnership in international agricultural research for development. The paper summarizes conclusions and insights from four distinct professional literatures: research studies, professional evaluation literature, practitioner oriented reviews, guidelines and assessment tools, and CGIAR-related reviews, evaluations, and policy documents. It identifies and analyzes key cross-cutting themes and success factors, highlights gaps in current knowledge, and identifies high potential areas for further study. A wide range of research-based publications is reviewed, including studies in such fields as management and organizational development, public administration, economics, and international development. Work in these fields covers such

diverse topics as the role of inter organizational collaboration in strategic management public private and cross sector partnerships North South partnerships roles of partnership in linking research with action networking and transactions costs The different literatures talk little to each other and are highly self referential Nevertheless some common patterns themes and concerns emerge related to definitions partnership drivers and dynamics trust and mutuality power asymmetries and inequities and success factors It is noteworthy that empirical studies of partnerships are rare particularly in depth case studies Theoretical pieces seldom present empirical tests of hypotheses and practical guidelines are seldom grounded in theory There is a clear need for more systematic and in depth empirical research on partnership experiences Although partnership is now considered an essential way of working in many fields several authors caution that the costs of working in partnership may often exceed the benefits Before establishing a partnership one should identify a clear value added proposition Many reports on partnership prepared for the CGIAR are available only in grey literature leading to difficulties in accessing them and risking a loss of knowledge Gaps in knowledge are identified at the level of individual partnerships the level of the organizations that participate in or manage portfolios of partnerships and the level of research or innovation domains that are characterized by networks of partnerships

Partnership Peace Operations Hideaki Shinoda, 2024-04-09 Partnership is a key concept in contemporary international peace operations There is no universal model of peace operations in contemporary international society Ad hoc arrangements of partnership between the United Nations and various regional organizations are consequences of the complex circumstances of international security The ways in which partnerships are organised differently in different regions reflect each region s distinctive security situation The universal nature of liberal peacebuilding is thus maintained only by ad hoc arrangements All the UN peacekeeping operations in Africa have some partnership linkages with regional or sub regional organizations ranging from the African Union AU and regional mechanisms to the European Union EU What are the conditions and characteristics that enable or lead to partnership peacekeeping in Africa How should we understand lower levels of partnership peacekeeping in other regions By highlighting key characteristics of partnership peacekeeping the book explores these issues and argues that partnership is a reflection of political circumstances The book provides an unexplored but critical perspective to understand the contemporary world for those who study International Relations Security Studies International Organizations and Peace Studies
