Basic Critical Theory For Photographers:

Basic critical theory for photographers Ashley la Grange, 2006 *Basic Critical Theory for Photographers* Ashley la Grange, 2013-08-06 Basic Critical Theory for Photographers generates discussion thought and practical assignments around key debates in photography Ashley la Grange avoids the trap of an elitist and purely academic approach to critical theory taking a dual theoretical and practical approach when considering the issues Key critical theory texts such as Sontag's On Photography and Barthes Camera Lucida are clarified and shortened La Grange avoids editorilising letting the arguments develop as the writers had intended it is the assignments which call into question each writer's approach and promote debate This is the ideal book if you want to understand key debates in photography and have a ready made structure within which to discuss and explore these fascinating issues It is accessible to students from high school to university level but will also be of interest to the general reader and to those photographers whose training and work is concerned with the practical aspects of photography Also includes invaluable glossary of terms and a substantial index that incorporates the classic texts helping you to navigate your way through these un indexed works The book also contains useful information on photo mechanical processes explaining how a photograph can appear very differently and as a result be interpreted in a range of ways in a variety of books

Reading Photographs Richard Salkeld, 2020-09-02 Reading Photographs is a clear and inspiring introduction to theories of representation and visual analysis and how they can be applied to photography Introducing the development of photography and different approaches to reading images the book looks at elements such as identity gaze psychoanalysis voyeurism and aesthetics Striking visual examples are used to illustrate the text and engaging case studies delve deeper into issues raised within each chapter with brief activity points to allow the reader to apply relevant theories to their own practice

Camera & Craft: Learning the Technical Art of Digital Photography Andy Batt, Candace Dobro, Jodie Steen, 2014-09-19 Advice and insights from professionals working in a variety of fields from photojournalism and portraiture to fine art landscape and commercial photography Technical explanations about how photographic tools work so you can connect knowledge to your practice and work more instinctively and creatively Key steps for improving digital workflow Innovative exercises at the end of each chapter as well as on our companion website that encourage you to experiment with and understand the photographic process from learning how far you can push your camera's sensor to exploring the effects of neutral vs creative color Interviews with technical and creative experts about developing skills and making images that matter

Cities and Photography Jane Tormey, 2013-01-17 Photographs display attitudes agency and vision in the way cities are documented and imagined Cities and Photography explores the relationship between people and the city visualized in photographs It provides a visually focused examination of the city and urbanism for a range of different disciplines across the social sciences and humanities photography and fine art This text offers different perspectives from which to view social political and cultural ideas about the city and urbanism through both verbal discussion and photographic representation It

provides introductions to theoretical conceptions of the city that are useful to photographers addressing urban issues as well as discussing themes that have preoccupied photographers and informed cultural issues central to a discussion of city This text interprets the city as a spatial network that we inhabit on different conceptual psychological and physical levels and gives emphasis to how people operate within relate to and activate the city via construction habitation and disruption Cities and Photography aims to demonstrate the potential of photography as a contributor to commentary and analytical frameworks what does photography as a medium provide for a vision of city and what can photographs tell us about cities histories attitudes and ideas This introductory text is richly illustrated with case studies and over 50 photographs summarizing complex theory and analysis with application to specific examples Emphasis is given to international contemporary photographic projects to provide provide focus for the discussion of theoretical conceptions of the city through the analysis of photographic interpretation and commentary This text will be of great appeal to those interested in Photography Urban Studies and Human Geography

Media and Its Role in Protecting the Rights of Children in Africa Oyero, Olusola, 2019-10-18 Many international and national charters and declarations have sought to define and protect the rights of children and ensure their safety Although many African countries subscribe to these international conventions and charters rights violations against children have not diminished and negative actions against children are still carried out daily Though the media have been charged with the responsibility of active involvement in protecting the interest of the child it is important to examine how well they have fared in the performance of this duty and the challenges that occur in the process as well as identify future pathways to ensure that the media succeeds in this assignment Media and Its Role in Protecting the Rights of Children in Africa is an essential research publication that examines media roles challenges theories and strategies to ensuring the realization of the rights of children Featuring a range of topics such as cyber ethics media studies and sustainable development this book is essential for reporters journalists newscasters broadcasters communication specialists government officials activists humanitarians sociologists psychologists social workers professionals researchers non governmental organizations policymakers academicians and students

The Routledge Handbook of Language and Mind Engineering Chris Shei, James Schnell, 2024-04-16 The Routledge Handbook of Language and Mind Engineering is a comprehensive work that delves into the complex interplay between language culture politics and media in shaping the human mind The book is divided into five main sections each exploring different aspects of mind engineering I Political Mind Engineering II Commercial Mind Engineering III Media Culture and Mind Engineering IV Linguistic and Semiotic Analysis of Mind Engineering V Mind Engineering in Educational Settings The book provides a multi dimensional perspective on how language media culture and politics intersect to shape individuals thoughts and beliefs It highlights the diverse methods and contexts in which mind engineering occurs making it a valuable resource for scholars researchers and policymakers interested in understanding the complexities of contemporary discourse and manipulation of human thought The contents of
