

Neuro-Linguistic Programming In A Nutshell

NLP was developed by Richard Bandler and John Grinder, who believed that the thoughts and behaviors of successful people could be taught to others. Neuro-linguistic programming is a means of changing the thoughts or behaviors of an individual to help them achieve a desired outcome. Neuro-linguistic programming (NLP) is based on the idea that people use internal "maps" to navigate the world. However, these maps are often constrained by certain limitations or unconscious biases that are unique to every individual.
