Basic Verities, Prose, and Poetry Charles Péguy, 1943 Notes on Bergson and Descartes Charles Péguy, 2019-02-12

Charles Péguy 1873-1914 was a French religious poet, philosophical essayist, publisher, social activist, Dreyfusard, and Catholic convert. There has recently been a renewed recognition of Péguy in France as a thinker of unique significance, a reconsideration inspired in large part by Gilles Deleuze's *Différence et répétition* which ranked him with Nietzsche and Kierkegaard. In the English-speaking world, however, access to Péguy has been hindered by a scarcity of translations of his work. This first complete translation of one of his most important prose works, with accompanying interpretive introduction and notes, will introduce English-speaking readers to a new voice which speaks in a powerful and original way to a modern West in a condition of cultural and spiritual crisis. The immediate circumstance of the writing of this last prose essay, unfinished at the time of Péguy's early death, was the placing of Henri Bergson's philosophical works on the Catholic Index and Péguy's undertaking to defend his former teacher from his critics, both Catholic and secular. But the subject of Bergson is also a springboard for the exploration of the perennial themes, philosophical, theological, and literary, most central to Péguy's thought. *Dante and the Victorians* Alison Milbank, 1998. Milbank, English U of Cambridge, argues that an understanding of Victorianism's reception of Dante is essential for understanding its notions of history, nationalism, aesthetics, and gender, as well as the often strange intersections between any two or more of them. She offers a new genealogy of literature in modern times, substituting a continuous Dantism for the conventional tale of Victorian realism and historicism challenged by modernist symbolism. She also finds Dante to be the first writer to historicize, fictionalize, and humanize the eternal realm, and therefore the route through which history, secularized fiction, and positivist humanism can be traced to a lost transcendent. Distributed in the US by St Martin's Press. Annotation copyrighted by Book News, Inc., Portland, OR. **Graham Greene's Catholic Imagination** Mark Bosco, 2005-02-17. Graham Greene's early books are described as Catholic novels, with his later work falling into political and detective genres. This title argues that this is a false dichotomy created by a narrowly prescriptive understanding of the Catholic genre, and obscures the impact of Greene's religious imagination on his literary art.

Encyclopedia of the Essay Tracy Chevalier, 2012-10-12. This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length. The more than 500 entries by 275 contributors include entries on nationalities, various categories of essays such as generic, such as sermons, aphorisms, individual major works, notable writers, and periodicals that created a market for essays, and particularly famous or significant essays. The preface details the historical development of the essay, and the alphabetically arranged entries usually include biographical sketch, nationality, era, selected writings, list of additional readings, and anthologies. **An Avant-garde Theological**
