giving moral and financial support Usually the baby shower is organized by non relatives But today there is isn t abnormal to find family members support group members church friends and pretty much anyone except the expecting mother Inviting the Guests Who should you invite Usually the guest list will only include those nearest and dearest to the expectant mother It wouldn t hurt if she gets a first look at the guest list so that she can suggest who should be invited If you are planning a surprise baby shower you will have to do a little research on who should be attending instead of running the list through the expectant mother If the child is not a firstborn you may opt to keep the number of guests down to the closest to the mother Firstborn baby showers tend to have a larger guest list since it is after all the mother s first time The thing to remember is that the nature of baby showers is intimacy So for any baby shower party try making the gathering one of intimate friends You could use informal ways to invite these guests email phone and others Invitation cards and other letters are the best way however as they provide a tangible traceable evidence of invitation Plus it is the most sure and formal way to invite a person and in many cultures the only way What About the Guys The nature of the party is probably going to tend towards the feminine side if the organizers of the party have a provision for this then inviting men would be fine It also depends on the men since the party may dwell on topics such as pregnancy children and other motherly topics they might not be that excited to join All in all it depends on the preference of the organizers Venue Anywhere As long as it can keep with the placid and fun nature of the occasion any place would be fine The more usual places on baby shower lists are backyards formal halls restaurants and basically any room that has the amenities to make a baby shower successful Just make sure the venue is not crowded and stressful to the mother to be It also pays to make sure the venue is set long before the actual baby shower happens When to Throw a Baby Shower Usually this is one or two months before her due The baby shower is the perfect time to get your friend baby needs and stuff she may not have had time to purchase yet It has to be well timed though not too close to the due date and not too far as to whittle down the excitement Baby showers are a pleasant surprise to expecting mothers It takes a lot of the stress of expecting a child off of their minds and provides a means for friends to show support and concern and of course baby gifts to expecting friends A properly coordinated baby shower will be greatly appreciated and forever remembered by mothers long after they have delivered their children *Baby Shower Divine*

**Parenting** Hamilton David,2019-08-23 If you re planning a baby shower you re in the right place Here you ll find baby shower ideas In the past baby showers were simpler to prepare and more traditional An informal gathering was arranged to congratulate the expecting mom and this event served as a venue for the older or more experienced mothers to give birthing advice to the expecting mother They typically would reassure her and calm her fears about the whole delivery process As the chatting would usually continue for some time the shower often included food and drinks The baby shower was also a chance for other mothers to give gifts for the baby or pass on valuable baby items that their own babies had outgrown Today baby showers have evolved but the practice of gift giving has been retained Modern baby showers are also more about making the mom to be feel special and planning these baby showers requires lots of time and attention If you have volunteered to or have been tasked with planning or hosting a baby shower this is the perfect book for you From reading this guide you ll have a solid footing as for where to start and you can be sure that you won t forget a single thing as you ll find inside a complete checklist of everything you need to do or prepare in order to throw a baby shower to remember Whether it s your first time planning a baby shower or you ve already thrown a few in the past this book contains very helpful tips and unique ideas that any baby shower host will find useful and helpful

EXCERPT FROM THE BOOK Unless it is a surprise baby shower you may find it helpful to consult with the mother to be If you do not want to bother her get together with her close friends and family members such as her husband sister or best friend You probably already have a good sense of what the mother to be prefers for her shower but talking to her directly or polling some of her close friends will probably reveal preferences that you were not already aware of When you are not pregnant it can be hard to remember all the seemingly innocuous things that are dangerous for pregnant women Make sure to double check all your refreshments so that the mother to be can indulge freely and without guilt No alcohol is an obvious choice Even if the guests can still drink alcohol you don t want the mother to be feeling awkward and left out There are other foods that a pregnant mother should avoid including most types of fish undercooked meat deli meat soft cheeses unwashed vegetables and unpasteurized milk All these foods may contain bacteria mercury or other substances that could run the risk of harming the unborn baby Keep the sushi brie cheese and deli meat trays away from this party Buy a copy to keep reading
