Ambiguity Machines and Other Stories Vandana Singh,2018-02-13 After the success of her collection The Woman Who Thought She Was a Planet Vandana Singh returns to the short story in Ambiguity Machines Her deep humanism interplays

with her scientific background in stories that consider and celebrate this world and others with characters who try to make sense of the people they meet what they see and the challenges they face An eleventh century poet wakes to find he is an artificially intelligent companion on a starship A woman of no account has the ability to look into the past And in Requiem a major new novella a woman goes to Alaska to try and make sense of her aunt s disappearance Examining the revolutionary potential of speculative fiction Singh dives deep into the vast strangeness of the universe without and within to explore the ways in which we move through space and time together yet always apart **The Yates Pride; The Copy-Cat, and Other Stories** Mary Eleanor Wilkins Freeman,2025-08-31 Reproduction of the original The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage Supplement, 1953 Isabel S. familiar scenes He is akin to Teniers and Callot We feel as though we had seen and lived with his characters for he shows us their eccentricities their nervous habits their slightest gestures One lisps another mispronounces his words and a third hisses because he has lost a front tooth Unfortunately Gogol is so absorbed in this minute study of details that he too often forgets to subordinate them to the main action of the story To tell the truth there is no ordered plan in his works and a strange trait in an author who sets up as a realist he takes no care to preserve an atmosphere of probability His most carefully painted scenes are clumsily connected they begin and end abruptly often the author's great carelessness in construction destroys as though wantonly the illusion produced by the truth of his descriptions and the naturalness of his conversations *Tom Morris's Error ... and Other Stories.
