Fiddler's Fakebook David Brody,1983-01-06 From the author s preface This book was conceived four years ago almost to the

day at a time when I was teaching fiddle and mandolin in New York City It was my idea then with my students in mind to compile a book of the most often played most important and most interesting fiddle tunes from the various Celtic and North American traditions The tunes were chosen by cataloging a large number of recordings by tune title A tally was taken to find out which had been recorded most often This established a foundation of material that could not be left out To this list I added the names of other pieces which had not been recorded as frequently but which I knew were played regularly and with respect I admit to sprinkling the collection with a few lesser known tunes which happen to be personal favorites but I am sure they will hold their own when placed next to the old war horses of the fiddler s repertoire Although I started out with my students in mind this book has turned out to be the book that I ve always wanted and I hope that it will serve the advanced player as well as the beginner

In addition to the preservation and popularization of this folk music form the contributors shared these common goals in this endeavor: composer recognition, folk music revitalization in Canada and abroad, acknowledgement of the violin and its own origins in the development of fiddle music and its place in Canadian society, note reading and chording, and to pay tribute to many great fiddlers. This revised edition features contributions of 200 of the best tunes from the first printing as well as 200 new tunes. They consist of hornpipes, strathspeys, polkas, waltzes, calypsos, reels, clogs, two steps, jigs, airs, breakdowns, schottishes, marches, rags, and laments. A bibliography and the background of each composer is included.
