Manhua Modernity John A. Crespi,2020-12-25 A free open access ebook is available upon publication Learn more at www.luminosoa.org From fashion sketches of smartly dressed Shanghai dandies in the 1920s to multipanel drawings of refugee urbanites during the war against Japan to panoramic pictures of anti American propaganda rallies in the early 1950s the polymorphic cartoon style art known as manhua helped define China s modern experience Manhua Modernity offers a richly illustrated deeply contextualized analysis of these illustrations across the lively pages of popular pictorial magazines that entertained informed and mobilized a nation through a half century of political and cultural transformation In this compelling media history John Crespi argues that manhua must be understood in the context of the pictorial magazines that hosted them and in turn these magazines must be seen as important mediators of the modern urban experience Even as times changed from interwar era consumerism to war time mobilization to Mao style propaganda the art form adapted to stay on the cutting edge of both politics and style

The Martial Arts Cinema of the Chinese Diaspora Kin-Yan Szeto,2011-06-29 In The Martial Arts Cinema of the Chinese Diaspora Kin Yan Szeto critically examines three of the most internationally famous martial arts film artists to arise out of the Chinese diaspora and travel far from their homelands to find commercial success in the world at large Ang Lee John Woo and Jackie Chan Positing the idea that these filmmakers success is evidence of a cosmopolitical awareness arising from their cross cultural ideological engagements and geopolitical displacements Szeto demonstrates how this unique perspective allows these three filmmakers to develop and act in the transnational environment of media production distribution and consumption Beginning with a historical retrospective on

Chinese martial arts films as a diasporic film genre and the transnational styles and ideologies of the filmmakers themselves Szeto uses case studies to explore in depth how the forces of colonialism Chinese nationalism and Western imperialism shaped the identities and work of Lee Woo and Chan Addressed in the volume is the groundbreaking martial arts swordplay film that achieves global success Ang Lee's *Crouching Tiger Hidden Dragon* and its revelations about Hollywood representations of Asians as well as concepts of male and female masculinity in the swordplay film tradition Also investigated is the invigoration of contemporary gangster thriller and war films by John Woo whose combination of artistic and historical contexts has contributed to his global success Szeto then dissects Chan's mimetic representation of masculinity in his films and the influences of his Chinese theater and martial arts training on his work Szeto outlines the similarities and differences between the three artists' films especially their treatments of gender sexuality and power She concludes by analyzing their films as metaphors for their working conditions in the Chinese diaspora and Hollywood and demonstrating how through their works Lee Woo and Chan communicate not only with the rest of the world but also with each other Far from a book simply about three filmmakers *The Martial Arts Cinema of the Chinese Diaspora* investigates the transnational nature of films the geopolitics of culture and race and the depths of masculinity and power in movies Szeto's interdisciplinary approach calls for nothing less than a paradigm shift in the study of Chinese diasporic filmmakers and the embodiment of cosmopolitical perspectives in the martial arts genre

Asian Punches Hans Harder, Barbara Mittler, 2013-06-24 This book deals with *Punches* and *Punch* like magazines in 19th and 20th century Asia covering an area from Egypt and the Ottoman Empire in the West via British India up to China and Japan in the East It traces an alternative and largely unacknowledged side of the history of this popular British periodical and simultaneously casts a wide reaching comparative glance on the genesis of satirical journalism in various Asian countries Demonstrating the spread of both textual and visual satire it is an apt demonstration of the transcultural trajectory of a format intimately linked to media bound public spheres evolving in the period concerned

Asian Popular Culture Anthony Y.H. Fung, 2013-05-29 This book examines different aspects of Asian popular culture including films TV music comedy folklore cultural icons the Internet and theme parks It raises important questions such as What are the implications of popularity of Asian popular culture for globalization Do regional forces impede the globalizing of cultures Or does the Asian popular culture flow act as a catalyst or conveying channel for cultural globalization Does the globalization of culture pose a threat to local culture It addresses two seemingly contradictory and yet parallel processes in the circulation of Asian popular culture the interconnectedness between Asian popular culture and western culture in an era of cultural globalization that turns subjects such as *Pok mon* *Hip Hop* or *Cosmopolitan* into truly global phenomena and the local derivatives and versions of global culture that are necessarily disconnected from their origins in order to cater for the local market It thereby presents a collective argument that whilst local social formations and patterns of consumption and participation in Asia are still very much dependent on global cultural developments and the

phenomena of modernity yet such dependence is often concretized reshaped and distorted by the local media to cater for the local market
