Journey to the People's Republic of China; Review & Analysis Kalman Dubov, On a Holland America Grand Voyage aboard the flagship Amsterdam I had the great fortune of visiting the ancient land of China now known as the People's Republic of China This visit enabled me to for the first time to walk part of the way of the Great Wall visit the Old Summer Palace and see Tien An Men Square and the Forbidden City Besides visiting the capital city the ship also visited Shanghai and Hong Kong China is a huge country whose history goes back millennia The places we visited provided but a glimpse of that history and its current politics In this volume I review China's ancient history with an overview of the many dynasties that made China great For many years China stood at the forefront of technological and scientific discovery known today as the Four Great Discoveries the compass making paper gunpowder and printing Each of these transformed the world in its own way Yet the advancement of science and technology did not stay in China The great conundrum today is exploring the reasons China lost its ability to stand at the helm of such advancement I explore this issue while reviewing the complexities of how China lived both in its dynastic and modern periods Ancient China had civil service examinations as a method to identify the best and brightest minds and then to employ them for service to the emperor Jinshi the highest and most difficult examination was so complicated the successful candidates name was inscribed on stone then selected to remain in Beijing in service to the emperor Such examinations later migrated to other countries in the Far East then to the West where it is in common use today China and its millennium long history reflect an ancient people who today seek to assert their presence and power on the world stage Prior to its current form of government it was forced to capitulate to Western colonial powers Revolts by the Chinese against such foreign intervention resulted in the Opium Wars the loss of Hong Kong and the destruction of its Old Summer Palace I explore China's bitter past together with its current belligerence on the world stage as it seeks to redevelop and transform itself from the ancient Silk Road into the modern OBOR One Belt One Road with dramatic effect on many peoples and nations I also noted the conundrum of seeing tall high rise clusters of apartment buildings structures that could house thousands of people but stand completely empty Passing these buildings at night was eerie not a single light or human is visible anywhere The claim of a surging China at least in the places I visited made me wonder if the building boom the media and economists claim is but a bubble soon to evaporate in the glare of inquiry and reality Nonetheless this visit was dramatic in its own way offering many varieties of the different strata of this complex

society During this visit I explored the Jewish community first in Shanghai then in Hong Kong Several Jewish passengers joined to attend the Sabbath Service at the Chabad House We were warmly welcomed and saw a robust community in this remote part of the world In Hong Kong we visited several synagogues noting the pride and activity present in these communities I explore the history of the Jewish community in these centers with a special interest in the Jewish Ghetto of Shanghai where thousands of European Jews were sheltered during the Nazi s Final Solution They were given refuge in Shanghai and the area they lived in is still visible by way of a museum and plaques indicating where they lived and survived the war years The enormity of China demands a multi volume effort to do justice to its geography and history This is but a small contribution of this ancient land *Traditional Chinese Fiction in the English-Speaking World* Junjie Luo,2022-08-16

The Variation Theory of Comparative Literature Shunqing Cao, 2014-03-21 Seeing the restrictions of former studies in Comparative Literature and aiming to amend these deficiencies the author of this book mainly discusses the major theoretical significance and academic value of the Variation Theory in the whole process of the development of Comparative Literature in the world In China the seminal comparative study of literature among different cultures can be dated back to ancient China while the founding of comparative literature as a distinct academic discipline has to be largely owing to the influence of the West The modern Chinese study of comparative literature formed its uniqueness under Western influence The direct influence of the translation of western theories into China is remarkable However in the course of translation and reception of Western theories Chinese comparatists and intellectuals have been encountering various problems and solving them with an alternative method accordingly different from the traditional methods proposed by the French School and the American School Therefore in this book modern Chinese study of comparative literature is put in a historical context with regard to the theoretical issue of the discipline in China through the entire 20th century At present many scholars in China and in other countries agree that with the influence study proposed by the French School and the study of analogy advocated by the American School the entire theoretical system of Comparative Literature is well built However when the comparative study of literature between East and West is concerned the theory of Comparative Literature is far from perfect It is not only because many problems still exist but there are significant defects in their theoretical bases respectively Many researches have proven that even with the influence study and the study of analogy we still can not solve many problems in the practice of studies in comparative literature This does not mean that we have no respect for the contributions of the French School and the American School we just want to attach importance to literary variations which is a phenomenon that has long been neglected The purpose of putting forward the Variation Theory in Comparative Literature is to provide new perspectives new methods and new theory to the study of comparative literature which may be a major breakthrough in the international arena of Comparative Literature The neglect of literary variation is mainly because all the previous theories about comparative literature start off in search of similarities but not differences Accordingly in 1990s heterogeneity as a premise of comparability was put forward And later the variation theory was further advanced It is not only the important phenomenon in literary communication but also the most valuable research object in Comparative Literature Still it will be an important path to cultural innovation The Variation Theory may

make up the major flaws of theories by both French school and the American School since it focus on heterogeneity and variability in cross cultural literary events especially the ones of inter civilization which will be a new course for comparative literature Throughout the history of literature and the history of literary communication collisions between different civilizations have always been producing new literary events which make the heterogeneity of different civilizations and variability traceable The higher stage of literary communication may mean dialogue and blend between different cultures The overarching concerns of this book include different levels of variation in literary communication and the studies of different objects The introduction begins with a literature review of major achievements made by the French School and the American School with pointing out what they have neglected The body of the book is divided into three parts In the first part Chapter 1 deals with the major contributions of influence study and its weaknesses The origination of comparative literature in most of European countries is reviewed first and then the major contributions of the French School are listed to point out its merits and weaknesses The author discusses the relation between Influence Study and the Variation Theory and the importance of the French school in theoretical development of comparative literature is stressed too Chapter 2 offers a critical introduction and reflection on the study of analogy Both its major contributions and weaknesses are made clear to further illustrate the relationship between interpretation and the Variation Theory And the discursive variation is discussed Part II is a transitional part with only one chapter that gives a clear account of phenomenon of variation from international perspective Part III consists of four chapters Chapter 4 offers a detailed description of The Variation Theory in cross languages context Chapter 5 deals with cross cultural variation in homogeneous circle of civilization Chapter 6 discusses the variation among heterogeneous civilization For a long period of time the theoretical study of comparative literature in China has largely been confined to the Chinese academic arena thus has long been neglected On one hand western comparatists have gradually realized the importance of a non western perspective in the study of the discipline on the other hand few books are available to introduce the recent development of comparative literature study in China Compared with the enthusiastic reception of the theories of the French School and the American School the theories of Chinese comparatists receives relatively little attention in western countries In this sense the proposed book attempts to challenge the myth of monolithic theories of comparative literature trying to construct an alternative theory of the discipline
