Japanese pottery, a native report (prepared by M. Shioda and tr. by T. Asami). With an intr. and catal. by A.W. Franks M. Shioda, 1880 **Objectifying China, Imagining America** Caroline Frank, 2011 With the ever expanding presence of China in the global economy Americans more and more look east for goods and trade But as Caroline Frank reveals this is not a new development China loomed as large in the minds and account books of eighteenth century Americans as it does today Long before they had achieved independence from Britain and were able to sail to Asia themselves American mariners merchants and consumers were aware of the East Indies and preparing for voyages there Focusing on the trade and consumption of porcelain tea and chinoiserie Frank shows that colonial Americans saw themselves as part of a world much larger than just Britain and Europe Frank not only recovers the widespread presence of Chinese commodities in early America and the impact of East Indies trade on the nature of American commerce but also explores the role of the this trade in American state formation She argues that to understand how Chinese commodities fueled the opening acts of the Revolution we must consider the power dynamics of the American quest for china and China during the colonial period Filled with fresh and surprising insights this ambitious study adds new dimensions to the ongoing story of America's relationship with China **The Power of Art** Caroline Campbell, 2024-01-02 An epic work of art history that will transform our understanding of the world by unlocking the human stories behind millennia of art Taking readers from ancient Babylon to contemporary Pyongyang the eminent curator Caroline Campbell explains art's power to illuminate our lives and inspires us to benefit from its transformative and regenerative power Unlike the majority of contemporary art history this book is about much more than the cult of artists personalities Instead each chapter is structured around a city at a particularly vibrant

moment in its history describing what propelled its creativity and innovation The emotions and societies she evokes are highly recognizable revealing how great art resonates powerfully by transcending the boundaries of time **Catalogue of a Collection of Oriental Porcelain and Pottery Lent for Exhibition by A.W. Franks** Bethnal Green Museum, Augustus Wollaston Franks, 1876 *The New Cultural Atlas of China* Marshall Cavendish Corporation, 2010 A comprehensive and highly readable account of the world's oldest living civilization exploring Chinese culture and society from the earliest times to the glories of the imperial age **Confucian Geopolitics** Ning An, 2019-12-09 This book presents an essential non-western geopolitical landscape and draws on the conceptual framework of critical geopolitics to discuss the views on terrorism held by various groups of Chinese people including the elite middle class and masses After investigating these views the book posits that these Chinese geopolitical imaginaries cannot be fully understood using the extant geopolitical theories including communism nationalism and realism Accordingly it subsequently seeks to adapt the Confucian geopolitical idea in order to theorize Chinese geopolitics By doing so the book reintroduces the historically embedded but long ignored traditional Chinese political geography philosophies in particular Confucian thinking into efforts to explain Chinese geopolitics In this regard it promotes a specific and importantly Confucianism based understanding of international security politics The geopolitical model provided can also help to explain Chinese views on other major geopolitical issues
