Dwell , 2006-02 At Dwell we re staging a minor revolution We think that it s possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines **Selected Letters of John Updike** John Updike, 2025-10-21 The arc of literary giant John

Updike s life emerges in these luminous daily letters to family friends editors and lovers a remarkable outpouring over six decades from his earliest consciousness as a writer to his final days As James Schiff writes in the introduction to this volume of the writer who would eventually express himself in written form as copiously and as elegantly as any American writer before him Updike needed to write the way the rest of us need to breathe or eat With his stunning rhetorical gifts enabling

him to thrive in both short fiction and the novel criticism as well as poetry Updike was also a consummate letter writer When barely a teenager he began submitting poems and cartoons to national magazines and soliciting famous cartoonists with flattering requests for a drawing His letter writing only increased when he left the family farm in Pennsylvania for Harvard where he composed more than 150 witty substantive letters to his parents The summer after he graduated The New Yorker began accepting his work and his exchanges with editors publishers and writers would stretch into a correspondence that Schiff notes figures not as an adjunct to but rather an integral part of his astonishing literary output The intimacy and lucidity of these letters brings to the fore all manner of subjects and situations notably the ardent feelings for his first love and wife Mary and later the heartbreaking but honestly accounted breakup of their marriage the uncensored passion for other women including his Ipswich neighbor Martha who became his second wife the concern for his children's path to adulthood and the conversations with many literary peers from Joyce Carol Oates to Philip Roth as well as his Knopf and New Yorker editors critics translators and others in the lit business Filled with comic observations opinions and personal news told in the fluid first person voice of the writer himself these missives taken together create a page turning life in letters like no other

Metamedia Alexander Starre, 2015-08-15 Does literature need the book With electronic texts and reading devices growing increasingly popular the codex is no longer the default format of fiction Yet as Alexander Starre shows in Metamedia American literature has rediscovered the book as an artistic medium after the first e book hype in the late 1990s By fusing narrative and design a number of bibliographic writers have created reflexive fictions metamedia that invite us to read printed formats in new ways Their work challenges ingrained theories and beliefs about literary communication and its connections to technology and materiality Metamedia explores the book as a medium that matters and introduces innovative critical concepts to better grasp its narrative significance Combining sustained textual analysis with impulses from the fields of book history media studies and systems theory Starre explains the aesthetics and the cultural work of complex material fictions such as Mark Z Danielewski's House of Leaves 2000 Chip Kidd's The Cheese Monkeys 2001 Salvador Plascencia's The People of Paper 2005 Reif Larsen's The Selected Works of T S Spivet 2009 and Jonathan Safran Foer's Tree of Codes 2010 He also broadens his analysis beyond the genre of the novel in an extensive account of the influential literary magazine McSweeney's Quarterly Concern and its founder Dave Eggers For this millennial generation of writers and publishers the computer was never a threat to print culture but a powerful tool to make better books In careful close readings Starre puts typefaces layouts and cover designs on the map of literary criticism At the same time the book steers clear of bibliophile nostalgia and technological euphoria as it follows writers designers and publishers in the process of shaping the surprising history of literary bookmaking after digitization

De andere kleuren Orhan Pamuk,2014-04-03 In De andere kleuren zijn ruim tachtig teksten opgenomen die Orhan Pamuk in de loop der jaren over uiteenlopende onderwerpen schreef over het dagelijks leven

familie Istanbul over verschillende Turkse en West Europese auteurs over politiek Europa en over de romans die hij zelf publiceerde De andere kleuren geeft daarmee een indruk van Pamuks wereld wie hem heeft be nvloed in welke omgeving hij is opgegroeid en hoe hij tegen politieke ontwikkelingen in Turkije aankijkt **Dwell** ,2005 **Comics and the Senses** Ian Hague,2014-01-10 Attempts to define what comics are and explain how they work have not always been successful because they are premised upon the idea that comic strips comic books and graphic novels are inherently and almost exclusively visual This book challenges that premise and asserts that comics is not just a visual medium The book outlines the multisensory aspects of comics the visual audible tactile olfactory and gustatory elements of the medium It rejects a synaesthetic approach by which all the senses are engaged through visual stimuli and instead argues for a truly multisensory model by which the direct stimulation of the reader s physical senses can be understood A wide range of examples demonstrates how multisensory communication systems work in both commercial and more experimental contexts The book concludes with a case study that looks at the works of Alan Moore and indicates areas of interest that multisensory analysis can draw out but which are overlooked by more conventional approaches *Choice* ,2006
