Choiceless Awareness Jiddu Krishnamurti, 2000-12-31 Krishnamurti proposes that the current crisis is not social political economic or religious but the direct consequence of our fragmented way of living The fault is in our consciousness Over 600 passages were studied in all and the aspects of choiceless awareness most frequently addressed by Krishnamurti were noted and then selected for this book

Concept of Freedom Ambika Sharma,2001-05 The book contains quite comprehensively Jiddu Krishnamurti s philosophical ideas on human freedom Like Buddha and Christ Krishnamurti also possessed great love for human beings Therefore he showed a great concern for human plight He lived for more than ninety years during which he talked discoursed and lectured at different places in various countries for almost sixty years His main concern in those talks was to enlighten man about the impediments that didn t allow him to achieve freedom As a philosopher Krishnamurti s position is quite unique He develops neither any new philosophical canons nor believes in any kind of practices which would help man to attain freedom gradually He holds that man can reach the domain of freedom at once provided he keeps his mind free from every kind of thoughts The thoughtless state of mind is the state of a meditative mind It is also the state of a silent mind In a most simple and convincing language Krishnamurti reasserts the importance of the ancient precept know thyself and advises

us to seek liberation by acquiring the right knowledge which is the knowledge of one's own self Those who love philosophy and wish to acquaint themselves with Krishnamurti's views on human freedom will find this book very interesting **The Philosophy Of Self Knowledge** Agrawal, M M, 2010-08 The Mindful Way through Depression Mark Williams, John Teasdale, Zindel Segal, Jon Kabat-Zinn, 2012-02-08 This book has been replaced by Mindful Way through Depression Second Edition ISBN 978 1 4625 5392 1 **Enlightenment - The Total Understanding - The Psychology of the Buddhas** Sri Narayan Sirdesai, 2025-04-02 The author has done intense research on religion yoga and psychology for the last 40 years which included a thorough study of the teachings of holy books and those of J Krishnamurti Ramana Maharishi Swami Vivekanand Osho Rajneesh Sri Aurobindo Ghosh Paramhansa Yoganand Swami Muktanand George Gurdjieff and other prominent philosophers and masters There are many misconceptions delusions and wrong ideas floating about Enlightenment which mislead a true seeker The author also found out that though many great sages and philosophers have written dozens of books on this subject the matter is scattered not sequential and lacks clarity For a truth seeker it is very difficult to collate all the material and get the right understanding for successfully pursuing the spiritual path Therefore the author has taken the effort in writing this book which details the soul's evolutionary journey from Ignorance to Enlightenment and the spiritual states beyond Enlightenment in a single book This book explains in detail what is meant by Enlightenment attained by Buddha under the Bodhi tree the mutation in the brain involved and the steps to attain it This is the only book available in the world of this kind The book is based on the author's spiritual experiences under the guidance of his Satguru Mahayogi Swami Baldevdasji The author's Kundalini Shakti awakened in his 25th year on 14th January 1988 he got Self Realization in his 28th year and The Total Understanding as expounded in this book in his 49th year in October 2012 An intellectual has only a three dimensional view of life This book presents the Fourth Dimension quantum view of Life which is the Psychology of the Buddhas **Wake Up** Srinivas, 2025-03-07 Are we truly evolving or are we merely repeating the same patterns under different circumstances Humans have advanced technologically built civilizations and shaped societies yet inwardly have we really changed Do we still live in fear conflict and division driven by the same instincts that ruled us centuries ago Wake Up is not a self help book filled with techniques or quick solutions It is an invitation to observe question and understand the very nature of our thoughts emotions and conditioning It challenges the illusions we hold about progress happiness and identity urging us to look beyond superficial change and into the depths of our consciousness With deep insight and clarity this book explores the patterns that keep us trapped craving security seeking validation conforming to beliefs and living mechanically without true awareness Through inquiry rather than instruction it asks the fundamental questions Can we free ourselves from the cycle of fear and desire Is real transformation possible What does it mean to live with complete awareness If Be the Best Version of Yourself was about personal growth Wake Up is about breaking free This book is for those who seek more than answers it is for those willing to see beyond the known to step into the unknown and to

truly Wake Up **J. Krishnamurti and the Nameless Experience** Rohit Mehta, 1979 J Krishnamurti is one of the most revolutionary thinkers of our age To listen to him or to read his books is an experience by itself He challenges every norm and value of individual as well as social life He is not interested in mere outer changes he stands for a fundamental transformation what he calls the Mutation of the Mind He states that there must arise first the New Man before a New Society can be brought into existence The present book deals comprehensively with all aspects of Krishnamurti s teachings his philosophy his psychology and a practice of no practice Krishnamurti says Society is always static only in the individual can there be a radical revolution It is with this individual revolution that this book is fundamentally concerned
