The Cambridge Handbook of Evolutionary Ethics Michael Ruse,Robert J. Richards,2017-08-24 This book introduces readers to the application of evolutionary ideas to moral thinking and justification presenting contrasting perspectives on controversial issues

Information Ethics Adam D. Moore,2005 This anthology which focuses on the ethical issues surrounding free speech and information control includes writings by Aristotle John Stuart Mill and Immanuel Kant as well as expert 20th and 21st century commentators on aspects of the current debate

Material Ethics of Value: Max Scheler and Nicolai Hartmann E. Kelly,2011-08-21 Max Scheler and Nicolai Hartmann developed ethics upon a phenomenological basis This volume demonstrates that their contributions to a material ethics of value are complementary by supplementing the work of one with that of the other we obtain a comprehensive and defensible axiological and moral theory By phenomenology we refer to an intuitive procedure that attempts to describe thematically the insights into essences or the meaning elements of judgments that underlie and make possible our conscious awareness of a world and the evaluative judgments we make of the objects and persons we encounter in the world

Information Ethics Adam Daniel

Moore,2012-09-01 This anthology focuses on the ethical issues surrounding information control in the broadest sense Anglo American institutions of intellectual property protect and restrict access to vast amounts of information Ideas and expressions captured in music movies paintings processes of manufacture human genetic information and the like are protected domestically and globally The ethical issues and tensions surrounding free speech and information control intersect in at least two important respects First the commons of thought and expression is threatened by institutions of copyright patent and trade secret While institutions of intellectual property may be necessary for innovation and social progress they may also be detrimental when used by the privileged and economically advantaged to control information access consumption and expression Second free speech concerns have been allowed to trump privacy interests in all but the most egregious of cases At the same time our ability to control access to information about ourselves what some call informational privacy is rapidly diminishing Data mining and digital profiling are opening up what most would consider private domains for public consumption and manipulation Post 9 11 issues of national security have run headlong into individual rights to privacy and free speech concerns While constitutional guarantees against unwarranted searches and seizures have been relaxed access to vast amounts of information held by government agencies libraries and other information storehouses has been restricted in the name of national security

Formalism in Ethics and Non-formal Ethics of Values Max Scheler,1973 A lengthy critique of Kant s apriorism precedes discussions on the ethical principles of eudaemonism utilitarianism pragmatism and positivism

Explanation in Ethics and Mathematics Uri D. Leibowitz,Neil Sinclair,2016 How far should our realism extend For many years philosophers of mathematics and philosophers of ethics have worked independently to address the question of how best to understand the entities apparently referred to by mathematical and ethical talk But the similarities between their endeavours are not often emphasised This book provides that emphasis In particular it focuses on two types of argumentative strategies that have been deployed in both areas The first debunking arguments aims to put pressure on realism by emphasising the seeming redundancy of mathematical or moral entities when it comes to explaining our judgements In the moral realm this challenge has been made by Gilbert Harman and Sharon Street in the mathematical realm it is known as the Benacerraf Field problem The second strategy indispensability arguments aims to provide support for realism by emphasising the seeming intellectual indispensability of mathematical or moral entities for example when constructing good explanatory theories This strategy is associated with Quine and Putnam in mathematics and with Nicholas Sturgeon and David Enoch in ethics *Explanation in Ethics and Mathematics* addresses these issues through an explicitly comparative methodology which we call the companions in illumination approach By considering how argumentative strategies in the philosophy of mathematics might apply to the philosophy of ethics and vice versa the papers collected here break new ground in both areas For good measure two further companions for illumination are also broached the philosophy of chance and the philosophy of religion Collectively these comparisons light up new questions

arguments and problems of interest to scholars interested in realism in any area **Ethics** Harry J. Gensler,2011 **Ethics** Richard H. Corrigan,Mary E. Farrell (ed.),2010-08 This book may be read continuously from start to finish and will in itself provide the reader with a comprehensive guide to the study of ethics However it can also be read as individual chapters that stand in isolation from the remainder of the book In this way it is possible to pick and choose those areas that are pertinent to one s particular needs at the time of reading Undergraduates can therefore use it as a resource to support their lectures assist essay writing and term papers and point them towards further reading materials Written by experts it covers the following areas The History of Ethics Animal Ethics Business Ethics Ethics of Care Contractualism Egoism Environmental Ethics Global Ethics Kantian Ethics Law and Rights Normative Ethics Utilitarian Ethics Virtue Ethics and Ethics and Wellbeing The Oxford Handbook of Intergenerational Ethics Stephen M. Gardiner,2025 This volume of new essays focuses on the increasing relevance of intergenerational ethics to key challenges of the 21st century such as climate change rapid technological change the expanding human population and threats of extinction It features philosophers and political theorists of international standing providing a cutting edge perspective on these issues *The Oxford Handbook of Animal Ethics* Tom L. Beauchamp,R.G. Frey,2011-11-17 This text is designed to capture the nature of the questions as they stand today and to propose solutions to many of the major problems in the ethics of how we use animals *The Historical Development of Fundamental Moral Theology in the United States* Charles E. Curran,Richard A. McCormick,1999 Sketches the development of fundamental moral theology in the U S and then uses original sources to document the significant changes that have occurred in the discipline as well as the primary issues in Catholic moral theology today Morality and Justice John-Stewart Gordon,2024-09-27 This textbook is an essential primer for philosophy students embarking on their journey into the field of ethics and political philosophy It is meticulously structured to unfold the rich tapestry of ethical discourse in a manner that is both profound and accessible to undergraduate and graduate students alike Each chapter begins with a brief introduction followed by an in depth exploration of ethical concepts and concludes with thought provoking study questions and a curated list of further readings **Hindu Ethics** Roy W. Perrett,Senior Lecturer in Philosophy Roy W. Perrett,1998-01-01 This philosophical study offers a representation of the logical structure of classical Hindu ethics and argues for the availability of at least the core of this ethical system for Westerners *Basic Ethics* Michael Boylan,2020-12-29 Basic Ethics presents for a wide range of students and other interested readers the questions raised in thinking about ethical problems the answers offered by moral philosophy and the means to better integrate into both the reader s world and personal life It takes up what the author calls a worldview theory which shows readers how to begin with the values and understanding of the world that they already possess in order to transition from there to new levels of increasing ethical awareness Updates to the third edition include the more thorough integration of feminist ethics into the principal theoretical traditions a new chapter on the ethical responsibility to be well informed of current events expanded

coverage of human rights and additional opportunities on how to use ethical reasoning in thinking about one's own life and about public policy

Key Features

- Links personal values to a philosophical treatment of the major ethical theories
- Presents ethics in the context of social political issues that face our nation and the world
- Challenges the student to react to the presented material through critical exercises that may be used as weekly assignments and can form the basis of class discussion and evaluation
- Engages the student to think about underlying issues first in the basic questions before presenting the most popular solutions in the basic answers
- Invites the reader to make up her own mind on how to formulate an ethical theory that will help her in her own life
- Offers a 16 chapter format to fit into most college semester calendars
- Presents an overall structure that establishes foundational problems in ethical theory in the first section of the book that are variously addressed by the different ethical theories in the second section of the book
- Highlights key terms to help the reader grapple with issues raised which are reviewed and defined in a final Glossary
- Includes a final chapter designed to help students comprehend the book in its entirety
- Updates to the Third Edition
- Highlights new research on human rights and their relevance to ethical thinking and contemporary moral issues
- Integrates feminist ethics into the principal theoretical traditions: virtue ethics, ethical intuitionism, and some versions of deontology
- Provides new coverage of fake news and the moral responsibility to be well and accurately informed of current events
- Expands opportunities to use ethical reasoning in thinking about one's own life and about public policy

How Can We Be Equals? Giacomo Floris, Nikolas

Kirby, 2024-07-04

That all human beings are one another's moral equals is taken by many to be the fundamental premise of contemporary moral, political, and legal theory. It is also the demand of individuals and groups to be treated as equals that drives much of political practice and protest today. However, what does such a claim of basic equality between human beings mean? How can it possibly be true given that we are unequals in almost every other aspect of our lives? And who exactly is meant to fall within its scope? This volume brings together leading thinkers on basic equality to address these questions. Collectively, they explore the concept of equality in history and criticism, analysing and presenting solutions to the most pressing challenges that have been raised against the principle.

On the Moral Right to Get High Rob Lovering, 2025-06-29 Is getting high immoral In this book Rob Lovering defends the claim that it is not More specifically he argues that recreational drug use of which getting high is a token is neither intrinsically nor generally extrinsically immoral In other words he contends that recreational drug use is neither immoral in and of itself nor generally immoral due to an immoral making factor with which it may be contingently linked e.g. harm Lovering does so by offering two arguments for recreational drug use's *ultima facie* all things considered moral permissibility and critiquing twenty-four arguments for its immorality Meant to be a companion to Lovering's *A Moral Defense of Recreational Drug Use* Palgrave Macmillan 2015 which was written for a general audience this book is written for an academic specifically philosophical audience and explores recreational drug use in a deeper more philosophically and empirically rigorous way

Philosophy and Technology P.T. Durbin, F. Rapp, 2012-12-06 Only recently has the phenomenon of technology become an object of interest for philosophers The first attempts at a philosophy of technology date back scarcely a hundred years a span of time extremely short when compared with the antiquity of philosophical reflections on nature science and society Over that hundred-year span speculative critical and empiricist approaches of various sorts have been put forward Nevertheless even now there remains a broad gap between the importance of technology in the real world and the sparse number of philosophical works dedicated to the understanding of modern technology As a result of the complex structure of modern technology it can be dealt with in very different ways These range from metaphysical exposition to efforts aimed at political consensus Quite naturally within such a broad range certain national accents can be discovered they are shaped by a common language accepted philosophical traditions and concrete problems requiring consideration Even so the worldwide impact of technology its penetration into all spheres of individual social and cultural life together with the urgency of the problems raised in this context all these demand a joint philosophical discussion that transcends the barriers of language and cultural differences The papers printed here are intended to exemplify such an effort at culture transcending philosophical discussion
