their audience Using a combination of speaking skills effective slides and other aids effective presenters find the best way to convey their message This course covers how you can plan an effective presentation The first step is to research your audience Find out what they want to hear and customize your message to their needs Next you need to organize your ideas so that your message is easy to follow Know what your primary and secondary objectives are Finally when you know what your message is select the presentation method that most effectively conveys it You might decide to give a speech Or you might feel that a demonstration would be more suitable If you carefully plan your presentation you ll be able to deliver a message that s focused and relevant to your audience Many people feel nervous and uncomfortable when it comes to giving presentations Perhaps they re afraid they ll freeze forget to make a key point or get mixed up Or maybe they re afraid of confusing the audience or even worse boring them But there s no need to be nervous With a little planning and preparation it s possible to create presentations that are memorable and effective In this course you ll learn how to write and structure a presentation Every presentation should contain a well prepared opening middle and closing section You ll explore how to create engaging opening sections that grab the audience s attention You ll discover how to write interesting middle sections that contain the key points you want to make And you ll find out how to create memorable closing sections that tie everything together and leave a lasting impression You ll also learn whether you should write a script for your presentation or use a set of notes You ll learn about presentation aids such as flipcharts and whiteboards computer based slides models and props and handouts that can bring your presentation to life You ll also learn how to create eye catching reader friendly visual aids which will help keep the audience interested in your message Finally you ll get tips on how to rehearse your presentation effectively Rehearsing will increase your confidence in delivering a great performance on the big day Creating a memorable effective presentation is a skill that can be learned With a sound structure well chosen presentation aids and creative visuals in place you ll be well on your way to delivering a great presentation Suppose you re giving a presentation to a large audience As participants arrive you feel extremely nervous and to your dismay you realize the projector bulb has blown You speak hurriedly and audience members complain that they can t hear you from the back At the end you get some tough questions that you re unable to handle and you make a hasty exit Although you may have analyzed your audience and planned your material your delivery has let you down
