Blood On The Rails:

Blood on the Tracks Tom Grasty, 2007-11 This morning Room 211 The Chelsea Hotel Elysian Row A man is lying face up on a red crushed velvet chaise His wide open eyes stare at some unseen spot on the ceiling He is wearing a pair of tight fitting jeans scuffed up Spanish leather boots and a matching Bolero vest At first glance one might mistake him for a vagabond a vagrant a drifter He would have liked that He always thought of himself as a traveling troubadour But look closer The lifeless man lying across the chaise is none other than superstar Bob Dorian He d been hailed a poet a prophet and the voice of a generation Dorian never wanted to be any of those things The most famous rock star in the world always resented the attention Of course turning up dead attracts the most attention of all Suspects Tons of them They re all characters in Dorian s songs not to mention they all hold a grudge Intent on finding the killer Dorian s manager Jack Frost teams with Commissioner Tiresias and obituary writer Mister Johns to track down the true culprit and solve the mysterious murder And the answers they need may just be staring them in the face

Blood on the Tracks William Vitka, 2016-10-11 Athena and the Hellcat crew are driving hard Their first stop is the wasteland s only remaining radio station in Columbus Ohio run by the quirky Dapper brothers It s there that Athena learns of the dangers farther west in the nuclear hell radiation massive insects and a savage group of raiders called Wraiths Athena s best hope of getting to California is the organization that runs the railroads The Trakers Athena suspects not all is as it seems with the powerful religious group but the Traker s titanic locomotive the Bulldozer is the only way she can cover the dusty dead expanse of the Midwest So she makes a deal One with fatal consequences

Blood on the Tracks Willson, S. Brian, 2011-08-01 We are not worth more they are not worth less This is the mantra of S Brian Willson and the theme that runs throughout his compelling psycho historical memoir Willson s story begins in small town rural America where he grew up as a Commie hating baseball loving Baptist moves through life changing experiences in Viet Nam Nicaragua and elsewhere and culminates with his commitment to a localized sustainable lifestyle In telling his story Willson provides numerous examples of the types of personal risk taking nonviolent actions he and others have taken in attempts to educate and effect political change tax refusal which requires simplification of one s lifestyle fasting done publicly in strategic political and or therapeutic spiritual contexts and obstruction tactics strategically placing one s body in the way of business as usual It was such actions that thrust Brian Willson into the public eye in the mid 80s first as a participant in a high profile water only Veterans Fast for Life against the Contra war being waged by his government in Nicaragua Then on a fateful day in September 1987 the world watched in horror as Willson was run over by a U S government munitions train during a nonviolent blocking action in which he expected to be removed from the tracks and arrested Losing his legs only strengthened Willson s identity with millions of unnamed victims of U S policy around the world He provides details of his travels to countries in Latin America and the Middle East and bears witness to the harm done to poor people as well as to the environment by the steamroller of U S imperialism These heart rending accounts are offered

side by side with inspirational stories of nonviolent struggle and the survival of resilient communities Willson's expanding consciousness also uncovers injustices within his own country including insights gained through his study and service within the U S criminal justice system and personal experiences addressing racial injustices He discusses coming to terms with his identity as a Viet Nam veteran and the subsequent service he provides to others as director of a veterans outreach center in New England He draws much inspiration from friends he encounters along the way as he finds himself continually drawn to the path leading to a simpler life that seeks to do no harm " Throughout his personal journey Willson struggles with the question Why was it so easy for me a good man to follow orders to travel 9 000 miles from home to participate in killing people who clearly were not a threat to me or any of my fellow citizens He eventually comes to the realization that the American Way of Life is AWOL from humanity and that the only way to recover our humanity is by changing our consciousness one individual at a time while striving for collective cultural changes toward less and local Thus Willson offers up his personal story as a metaphorical map for anyone who feels the need to be liberated from the American Way of Life a guidebook for anyone called by conscience to question continued obedience to vertical power structures while longing to reconnect with the human archetypes of cooperation equity mutual respect and empathy

Blood on the Tracks David Brandon, Alan Brooke, 2010-12-26 Between 1835 and the 1850s railway mania blossomed around Britain Crime emerged as the railways developed at first opportunistic crimes such as fare evasion and robberies but gradually more inventive forms evolved notably the minor clerk Redpath in the 1850s whose shameless cooking of the books to live the high life exposed the lack of any kind of accountancy across the railway industry The first train murder was not until the 1840s and sparked great fear of foreigners as a German was charged and hanged for the crime The outcry resulted in the communication cord being introduced to the railway carriages so that no longer would they exist as completely separate spaces and passengers could alert the driver to any assault within This fascinating history covers all varieties of crime on the railways and how it has changed over the years from assaults and robberies to theft of goods murder vandalism football and other crowd activity suicide on the line fraud and white collar crime and also looks at the use of railway crime in film and literature

Life and Confession of Geo. Acker, the Murderer of Isaac H. Gordon, 1859 **Blood on the Irons** Bradley Berner, 2010-07 The Northwestern Reporter, 1891 *The Blood Contingent* Stephen Neufeld, 2017-04-15 In the pursuit of the modern the armed forces served as instrument model and metaphor for national progress I examine in this book how the military experience as representative of the process failed or fulfilled aspects of the broad national transition towards hegemony and sovereignty This is the first work combining personnel records and military literature with cultural sources to address the setting of military life for soldiers and their families rather than politics or officers In connection with nation

formation and identity this book moves away from studies of the army as an institution to broaden understandings of inculcations and the limits and fault lines of building Mexico as a nation More social and cultural in historical outlook I examine the creation of political cultures rooted in or derived from the personal experiences of the lower ranks In doing so the book removes some of the privileged view that official narratives emphasize in order to explain the making of a bureaucratic institution from the bottom up and to more clearly describe how this process both encouraged the development of nationalism and limited it in important ways In this fashion I build on the works of scholars whose focus has centered more on officers education and political conflicts
