**Blood and Home in Early Modern Drama** Ariane M. Balizet, 2014-04-24 In this volume the author argues that blood was crucially a means by which dramatists negotiated

shifting contours of domesticity in 16th and 17th century England Early modern English drama vividly addressed contemporary debates over an expanding idea of the domestic which encompassed the domus as well as sex parenthood household order the relationship between home and state and the connections between family honor and national identity The author contends that the domestic ideology expressed by theatrical depictions of marriage and household order is one built on the simultaneous familiarity and violence inherent to blood The theatrical relation between blood and home is far more intricate than the idealized language of the familial bloodline the home was itself a bloody place with domestic bloodstains signifying a range of experiences including religious worship sex murder birth healing and holy justice Focusing on four bleeding figures the Bleeding Bride Bleeding Husband Bleeding Child and Bleeding Patient the author argues that the household blood of the early modern stage not only expressed the violence and conflict occasioned by domestic ideology but also established the home as a site that alternately reified and challenged patriarchal authority Blood and Bone I. Blood in the Iberian World María Elena Martínez, David Nirenberg, Max-Sebastián Hering Torres, 2012 Racism Analysis is a research series by LIT Verlag that explores racial discrimination in all its varying historical ideological and cultural patterns. It examines the invention of race as well as the dimensions of modern racism and it inquires into racism avant la lettre. Race and Blood in the Iberian World is the third volume in the Race Analysis series. This collection offers an historical approach to the topics of race and blood in the Spanish Atlantic world with extended comparative glances toward other Iberian imperial contexts: Portuguese India and periods of the modern. The contributions include a proposition to analyze processes of racialization in plural before the modern period; the question of whether it is analytically appropriate to apply the concept of race to early modern Spanish and Spanish American contexts; the intricate dynamics of race and blood in Iberian discourses of otherness; an analysis of the discourse of *limpieza de sangre* in relation to Spain's Muslims and moriscos in New Granada; the meanings of the Spanish notions of race and its relationships with gender in colonial Mexico; the meaning of *casta raza* and *limpieza de sangre* in Goa; the place of Gypsies, indigenous people and blacks within discourses of citizenship and nativeness; a discussion about how to transform colonial subjects into citizens; an exploration of the works of two scientists of the inter-war period whose research in different ways contributed to what is called blood science. Series: Racism Analysis. Series B Yearbooks Vol 3.

**Blood and Belief** David Biale, 2007-10-23 A wonderful rich and fascinating book and a great read. Biale explores the meanings of blood within Jewish and Christian cultures from the blood of the sacrifices of the book of Leviticus to the blood of the Eucharist to the blood of medieval blood libels and the place of blood in Nazi ideology. Biale shows that blood symbolism stands at the center of the divide between Judaism and Christianity. This book will be the point of departure for all future studies of the subject. Shaye J D Cohen, Harvard University. I know of no other work that through numerous insights and useful distinctions so alerts us to and comprehensively documents the ongoing constitutive role of Christian and anti-Semitic perceptions of Jewish existence and the interactions between them. Whereas much contemporary historiography has become so specialized that historians have surrendered the larger picture, David Biale's panoramic perspective reveals the great value and interest of this work. Steven E. Aschheim, author of *Beyond the Border: The German Jewish Legacy Abroad*.

Autobiography of a Repaired Physician Prospero Shimshon Shimon,2011-01-29 The Autobiography of a Repaired Physician Mental Health as Seen from Both Sides of the Desk is a trilogy Book I deals with my life before during and after the emergence of an attack of bipolar disorder The shattering consequences of the disorder and the personal history that precede it are discussed in great clinical and personal detail My chief concern is that the reader comprehend how the past present and future come into play in understanding the outcome in the treatment of this destructive and deadly disease Book II concerns the social stigma associated with having a history of the disorder and the many pitfalls clinically psychologically and socially that exist for an individual such as myself who is charged with the professional responsibility of caring for people suffering from similar afflictions Book III is about my adventures in the real world as I have seen it It relates to the madness of our world in which the ever present and infuriating search for power prestige and possessions appear unfortunately to be the primary determinants of behavior in our society Many of my closest friends have tried to dissuade me from writing about this issue because they feared I would be exposing myself to further social stigma I feel strongly that those who have suffered from the destructive effects of the spectrum of bipolar disorder must know how treatment works and what pitfalls to avoid in treatment As a physician it is my duty to heal myself and with the help of some very talented colleagues I have been able to do just that My struggle continues and in that sense more books will be written I would like to especially acknowledge the help of my wife Barbara who has stuck with me through thick and thin and my children Miranda Alexander and Victoria who love each other and me

Jussen,David Warren Sabeau,Simon Teuscher,2013-01-01 The word blood awakens ancient ideas but we know little about its historical representation in Western cultures Anthropologists have customarily studied how societies think about the bodily substances that unite them and the contributors to this volume develop those questions in new directions Taking a radically historical perspective that complements traditional cultural analyses they demonstrate how blood and kinship have constantly been reconfigured in European culture This volume challenges the idea that blood can be understood as a stable entity and shows how concepts of blood and kinship moved in both parallel and divergent directions over the course of European history

**Hate and Reconciliation** Guido Cuyvers,2022-11-29 Every day the media confront us with the many forms and excesses of hatred cyber hatred hate speech bullying hate groups religiously inspired violence against dissidents and genocides Hatred is human and current It is an intrinsic part of what can happen between people Personal experiences can lead people to hate someone In society and even on a global level hatred is again and again the motor of misunderstanding and often also of violence between people Sometimes hate smoulders almost unconsciously at other times he is furious and serves as a flag for serious violence Hatred has many faces and seems omnipresent that much is clear The term Erida complex after the Greek goddess of hate symbolizes the common and deeply rooted nature of hatred Hatred is mighty as a destructive force He knows how to motivate individuals and large groups of people to bring out the worst in themselves He turns life among people into a desert However he cannot compete with Irene the goddess and the symbol of peace After all he is unable to correct what went wrong Nor is it a ground for building a peaceful society At the same time hatred is impotent against the positive freedom of people to transcend the negative Those who are open to this will see many connecting and therefore Irenian initiatives Hatred does not and should not have the last word Opposite the well of Erida is the Irenese the way to peace After examining the nature of hate this book focuses a wide angle lens on its many faces in individuals and groups as well as peoples Facing the negativity of hatred this book presents constructive approaches to fostering relationships between people and peace
