Chinese Experience:

Social Transformation and Chinese Experience Peilin Li, 2017-03-16 China's success on economic growth and its exploration on political reform in the past few decades have attracted the attention from worldwide economic and political experts. This book studies China's transformation and experience from a sociological perspective which broadens the research horizons and explores more complexity in contemporary China. This book examines China's social structural transformation especially its implications on resource allocation and expounds on China's sociology academic history. In addition, it covers a broad range of issues including China's experience of reform and development, urbanization, social hierarchy change, social conflicts, social management, mass consumption, etc. Lastly, it investigates China's urban village as a byproduct of economic development and urbanization which is rarely seen in other countries. These themes are key to understanding contemporary Chinese society, which makes this book a valuable reference for specialists on Chinese studies and those who are interested in contemporary China.

Inner Experience of the Chinese People Xiaohong Zhou, 2017-10-24 This book comprehensively explores the changes in the Chinese spiritual world from the perspective of transition and transformation. Chinese feeling, a brand new concept corresponding to Chinese experience, refers to the vicissitudes that 1.3 billion Chinese people have been through in their spiritual worlds. The book discusses this concept together with Chinese experience, two aspects of the transformation of the Chinese mentality that resulted from the unprecedented social changes since 1978 and which have given this unique era historical meaning and cultural values. At the same time, they offer a dual perspective for understanding this great social transition. Further, the book considers what will happen if we only focus on the Chinese Experience while neglecting the Chinese Feeling, the changes the Chinese people undergo when their desires, wishes, and personalities have changed. China and how their emotionally charged social mentality follow ebbs and flows of the changing society. Lastly, it asks what embarrassment and frustration the population will be faced with next after the tribulations their spiritual world has already been through.

Marxism and the Chinese Experience Arif Dirlik, Maurice Meisner, 2016-09-16 These essays consider the implications for Chinese socialism of the repudiation of the Cultural Revolution and the legacy of Mao Zedong, as well as the meaning of the new definition and direction Mao's successors have given socialism. The themes have been selected for conceptual coherence within a socialist problematic of social change. Representing anthropology, art history, economics, history, literature, and politics, various inquiries point in a twofold direction: the meaning of socialism for China and the meaning of Chinese Socialism for socialism as a global phenomenon, meaning not in some abstract sense but rather as it is constituted in the process of political ideological activity which articulates and defines social relationships within China as well as China's relationship to the world.

The Dao of Unrepresentative British Chinese Experience Daniel York Loh, 2024-07-03 I'm not even properly Chinese I'm only half and half so that makes me feel all wrong and I just want to blend out and fit in and not stand out and with you I stand out. We Stand Out. There's no safety in numbers. Sorry The British Chinese. So often regarded as a model minority. Quiet high achieving polite invisible. But when someone who is British Chinese spends their life taking drugs getting thrown out of school claiming benefits being chased in stolen cars getting locked up then rehabilitating onto the stage where do they fit in. Oh and they're not quite Chinese enough anyway. Semi autobiographical free form and explosive Daniel York Loh's psychedelic gig theatrical punk pop rap rock riff. The Dao of Unrepresentative British Chinese Experience. Butterfly Dream asks what path to choose which identity politics to embrace or whether it's just easier to follow the Dao of ancient Chinese philosopher Zhuangzi and dream you're a butterfly. Or be a butterfly dreaming of being Chinese. This edition was published to coincide with the world premiere Kakilang production at London's Soho Theatre in June 2024.

Contemporary Chinese Art Jeanne Boden,2022-05-06 In the early 1990s artist Xu Bing stamped two pigs with respectively nonsensical Latin words and fake Chinese characters and allowed them to mate in an art gallery The performance of two creatures devoid of human consciousness yet carrying on their bodies the marks of human civilization engaging in the most primal form of social intercourse confronted the public with the tension between nature and civilization The work also addresses the tension between China and the West and therefore perfectly fits the core message of this book Contemporary art in China takes place in a post socialist post Mao context and at the same time a post traditional one searching for balance between aesthetic legacy and modernization It also tries to find its position in the post colonial globalized arena This book explores the tension between individual artistic freedom and a dominant discourse of central Chinese government between China s cultural legacy and modernization and between China and a global art world still dominated by a Western canon As a case study it focuses on the artists who participated in the Venice Biennale in 1993 which was the first time contemporary art from mainland China was structurally invited to participate in a global art context Jeanne Boden has a PhD in Oriental Languages and Cultures Her research focuses on Eurocentrism Sinocentrism and contemporary Chinese art jeanneboden.com Cover picture

Transforming Emotions with Chinese Medicine Yanhua Zhang, 2012-02-01 Chinese medicine approaches emotions and emotional disorders differently than the Western biomedical model. *Transforming Emotions with Chinese Medicine* offers an ethnographic account of emotion-related disorders as they are conceived, talked about, experienced, and treated in clinics of Chinese medicine in contemporary China. While Chinese medicine (zhongyi) has been predominantly categorized as herbal therapy that treats physical disorders, it is also well known that Chinese patients routinely go to zhongyi clinics for treatment of illness that might be diagnosed as psychological or emotional in the West. Through participant observation, interviews, case studies, and zhongyi publications, both classic and modern, the author explores the Chinese notion of body-person, unravels cultural constructions of emotion, and examines the way Chinese medicine manipulates body-mind connections.

Chinese International Students and Citizenship Xiudi Zhang, 2020-02-22 This book investigates how Chinese international students reconfigure their sense of themselves as citizens when they reflect on what Chinese citizenship means in the context of New Zealand. Adopting a case study approach, it develops a theory relating to the thoughts of Chinese international students; the theory is based on the communities, schools, family, and state relationships of both their past and their contemporary daily experiences. It finds that the struggles of Chinese young people lie in between being individuals and submitting to the general will of the family, state, and guanxi, a Chinese concept of interpersonal relationships. The book argues that the Western literature on citizenship is not sufficient in helping us understand how it is viewed in the Chinese contexts. It offers readers a picture of what citizenship means for Chinese young people and the role of citizenship education in Modern Chinese society and demonstrates that the Chinese young people studied re-educated themselves on citizenship in a way that is unstable and emotional. This book makes important contributions to the literature on Chinese students who are studying abroad by going beyond the well-researched topics of academic and social experience to explore deeper understandings of each individual student's relationship to family and the state in China and how the study abroad experience has developed new understandings of individual's relationships to China and new possibilities for contributing to Chinese society on return.

Reform and Development in China Yang Yao, Ho-Mou Wu, 2010-09-13 Between 1978 and 2006 GDP growth in China maintained an annual average rate of 9.7%, meaning the Chinese economy increased by more than twelve times. This was achieved with quite unorthodox approaches to reform and development as China has adopted a gradualist approach to adopting key institutions as well as modifying and experimenting with traditional recipes for economic growth. This collection brings together key researchers in the field from Asia, US, Europe, and Australia to discuss how China has managed to push forward reforms in the face of political resistance.

how the Chinese economy has maintained growth within an imperfect institutional environment and how the Chinese government remains effective when it relinquishes its power to the market Specific emphasis is paid to the relevance of China's experiences to other developing countries This valuable contribution to the study of China's economy covers a wide range of topics including the historical foundations of the 30 years of reform law and development in China foreign direct investment poverty reduction market integration income distribution social protection as well as demographics and population Reform and Development in China finds both unique elements to the Chinese experience and elements which can be applied to other developing countries In particular China's gradualism in economic reform strong leadership and emphasis on inclusive development are singled out to be potentially transferable to other developing countries This collection will be of interest to postgraduate students and researchers as well as practitioners in development economics **Yearbook**
