**Order and Chivalry** Jesús D. Rodríguez-Velasco, 2016-01-13 Knighthood and chivalry are commonly associated with courtly aristocracy and military prowess Instead of focusing on the relationship between chivalry and nobility Jesús D Rodríguez Velasco asks different questions Does chivalry have anything to do with the emergence of an urban bourgeoisie If so

how And in a more general sense what is the importance of chivalry in inventing and modifying a social class In Order and Chivalry Rodr guez Velasco explores the role of chivalry in the emergence of the middle class in an increasingly urbanized fourteenth century Castile The book considers how secular urban knighthood organizations came to life and created their own rules which differed from martial and religiously oriented ideas of chivalry and knighthood It delves into the cultural and legal processes that created orders of society as well as orders of knights The first of these chivalric orders was the exclusively noble Castilian Orden de la Banda or Order of the Sash established by King Alfonso XI Soon after that order was created others appeared that drew membership from city dwelling bourgeois commoners City institutions with ties to monarchy including the Brotherhood of Knights and the Confraternities of Santa Mar a de Gamonal and Santiago de Burgos produced chivalric rules and statutes that redefined the privileges and political structures of urban society By analyzing these foundational documents such as Libro de la Banda Order and Chivalry reveals how the poetics of order operated within the medieval Iberian world and beyond to transform the idea of the city and the practice of citizenship **Irvin S. **Circassian History** Kadir I. Natho,2009-12-03 Circassian History relates the heroic struggle for survival of one of the most ancient nations in the world with a unique language and a highly developed distinctive culture Beginning from 1555 Circassian princes began seeking the friendship and protection of czarist Russia against the aggressions of the Ottoman Turks and Crimean Khans However Czarist Russia unleashed its colonial war against Circassia to build the necessary harbors on the Black Sea Their Nart Epos and archeological finds of the Maikop dolmen and barrow cultures testify that the ancestors of the Circassians lived and prospered on the same territory at least since the advent of the Bronze Age Their Homeland in North Caucasus stretched from the main ridge of the Caucasus Mountains to the northeastern Black Sea and eastern Azov seacoasts Its northern boundaries run from Lake Manych and along the Terek River the northern boundary of Kabarda Beginning from 1555 Circassian princes began seeking the friendship and protection of czarist Russia against the aggressions of the Ottoman Turks and Crimean Khans However Czarist Russia unleashed its colonial aggression and conquered Circassia to build the necessary harbors on the Black Sea Russia planned to seize Bosphorus and Dardanelles with the passage to the Mediterranean Sea weaken the position of the Ottoman Empire deal a powerful blow on the trade interests of Great Britain and gain the upper hand over the European powers in the contest for world supremacy In this unequal war Russia occupied

Kabarda in 1779 By 1822 it stripped off the Kabardinian princes of the right to rule in their own land and subjected them and their country to the dictatorship of the commanding generals of the Russian armed forces Thus early and masterfully Russia had cut off Kabarda from its western kindred and then directed its military might against Western Circassia During this period Russia launched a powerful worldwide propaganda campaign portraying the Circassians to the Western world as the marauding savages who should be obliterated from the face of the earth in order to ensure peace in the region At the same time Russia kept increasing its armed forces in this region For example during General Yermolovs time Russia increased its army in this region from 5075 000 excluding the Cossacks Russia added 47 new battalions since 1831 and another 40 000 soldiers in 1840 In short a 210 000 Russian armies and 80 000 Cossack Cavalries were conducting military operations in Circassia during 1853-1856 Later Russia reinforced it with 24 000 Russian infantry corps and 2 dragoon regiments and artillery Russia suffered colossal losses in the Russo Circassian War Since the time of Catherine II to 1864 1 5 million Russian soldiers fell in this country excluding the Cossack losses as they were not considered a part of the regular Russian army From the beginning until the end of the war the Russian army had burnt and pillaged twenty thirty fifty and one hundred Circassian villages at a time destroying the harvest and driving out the cattle the Russian army killed or uprooted the native inhabitants and settled Cossack and Russian stanitsas in the territory according to the planned genocide As Russian generals stated openly Russia needed the Circassian lands not the Circassians Finally Russia crushed the Circassian nation in 1864 forced them from their historical Motherland drove them to the Black Sea shore under Russian bayonets and threw them into the confines of the Ottoman Empire thus completing its planned genocide At the present time as a result of the genocide 90 percent of the Circassian population lives scattered all over the world They survived the planned Russian genocide the cold deprivations epidemics and other companions of their forcible exile They became exemplary citizens of many countries established their own new republics Adigey Kabardino Balkaria
