Family Affair Joe A. Howell, 2004-10-01 Dr Joe A Howell born in Cape Girardeau Missouri in 1930 served as an educator in five different states and two foreign countries His experience came from being a teacher professor dean vice president counselor and for eighteen years president of Central Methodist College in Missouri He received his doctorates from George Peabody College Vanderbilt University Nashville Tennessee His publications in professional journals are extensive and he has authored five books on higher education Over the years he has given the same advice to parents and teachers When asked how to treat a student or child he answers Treat them as you would like to be treated Throughout forty years he learned many particulars about the selecting and graduating from college One of the factors often overlooked is the importance the entire family plays It is not either the child or the parent it is the entire family A partnership if you will between the

prospective college student and the student's parents. It is this important relationship that this book is all about. All too often it takes more than the planned four years for the student to graduate from college. All too often a four-year supply of funds is not enough. All too often the reason for the delaying graduation has nothing to do with the student's ability to accomplish the academic challenges. Too often it has to do with selecting the wrong college. This book is directed toward helping the family find the match between themselves and the institution. Sound simple. Perhaps, but the statistics are clear. Only about 50 percent of all entering freshmen graduate in the planned four years. Yes, the match or mismatch between family and institution goes a long way toward graduating and enjoying college.
