The Social Sciences and Rationality Hudson Meadwell,2017-10-19 In recent decades rational choice theory has emerged as the single most powerful controversial claimant to provide a unified theoretical framework for all the social sciences In its simplest form the theory postulates that humans are purposive beings who pursue their goals in a rational efficient manner seeking the greatest benefit at the lowest cost This volume brings together prominent scholars working in several social science disciplines and the philosophy of science to debate the promise and problems of rational choice theory As rational choice theory has spread from its home base in economics to other disciplines it has come under fierce criticism To its critics

the extension of the explanatory model mistakenly assumes that the logic of economic rationality can explain non economic behavior and at its worst commits the ethnocentric error of imposing Western concepts of rationality on non Western societies and cultures This volume includes strong advocates as well as forceful critics of the rational choice approach However in contrast to previous debates all the contributors share a commitment to open constructive and knowledgeable dialogue Well known advocates of rational choice theory Michael Hechter Michael Smith Chris Manfredi explicitly ponder some of its serious limitations while equally well known critics Ian Shapiro Mario Bunge strike a surprisingly conciliatory tone in contemplating its legitimate uses Vociferous critics of neoclassical economics Bunge favorably discuss sociological proponents of rational choice theory while two economists who are not particularly anti mainstream Robin Rowley George Grantham critically assess the problems of such assumptions in their discipline Philosophers Storrs McCall and sociologists John Hall alike reflect on the variable meaning of rationality in explaining social behavior In the introduction and conclusion the editors survey the current state of the debate and show how open constructive dialogue enables us to move beyond hackneyed accusations and dismissals that have characterized much previous debate Complex Assemblages, Complex Social Structures Wendy A. Morrison, 2015-10-28 Late Iron Age and Early Roman Britain has often been homogenised by models that focus on the resistance assimilation dichotomy during the period of transition Complex Assemblages examines the rural settlements of this period through the lens of Cultural Theory in order to tease out the more nuanced and diverse human landscape that the material suggests This approach develops new ways of thinking about the variability observed in rural settlements from the end of the Middle Iron Age MIA to the early 2nd century AD the selected study area is the Upper and Middle Thames Valley This book uses the grid group designations of Mary Douglas Cultural Theory as a tool to produce a more multifaceted picture of the period exploring the assemblages of these rural settlements to understand the nature of the socio political structures of the region beyond the anonymity of tribal affiliation and the faceless economic dichotomy of high and low status **The Impact of Ethnic, Political, and Religious Violence on Northern Nigeria, and a Theological Reflection on Its Healing** Sunday Bobai Agang, 2011-09-07 This publication seeks to challenge established thinking about the causes of violence in Northern Nigeria It explores immediate and long term effects of that violence through reflection study and survey of previous research The fundamental argument within is that ethnic political and religious violence has affected Christian perspectives and core values and thus has hampered efforts towards just peacemaking **Culture Matters** Richard J Ellis, 2018-02-12 Culture Matters explores the role of political culture studies as one of the major investigative fields in contemporary political science Cultural theory was the focal point of the late Aaron Wildavsky's teaching and research for the last decade of his life a life that profoundly affected many fields of political science from the study of the presidency to public budgeting In this volume original essays prepared in Wildavsky's honor examine the areas of rational choice institutions theories of change political risk the environment and practical politics *Shadow Cold War*

Jeremy Friedman,2015-10-15 The conflict between the United States and the Soviet Union during the Cold War has long been understood in a global context but Jeremy Friedman s *Shadow Cold War* delves deeper into the era to examine the competition between the Soviet Union and the People s Republic of China for the leadership of the world revolution When a world of newly independent states emerged from decolonization desperately poor and politically disorganized Moscow and Beijing turned their focus to attracting these new entities setting the stage for Sino Soviet competition Based on archival research from ten countries including new materials from Russia and China many no longer accessible to researchers this book examines how China sought to mobilize Asia Africa and Latin America to seize the revolutionary mantle from the Soviet Union The Soviet Union adapted to win it back transforming the nature of socialist revolution in the process This groundbreaking book is the first to explore the significance of this second Cold War that China and the Soviet Union fought in the shadow of the capitalist communist clash **Theories of Small Groups** Marshall Scott Poole,Andrea B.

Hollingshead,2004-10-28 *Theories of Small Groups Interdisciplinary Perspectives* brings together the threads that unify the field of group research The book is designed to define and describe theoretical perspectives on groups and to highlight select research findings within those perspectives In this text editors Marshall Scott Poole and Andrea B Hollingshead capitalize on the theoretical advances made over the last fifty years by integrating models and theories of small groups into a set of nine general theoretical perspectives *Theories of Small Groups* is the first book to assess synthesize integrate and evaluate the body of theory and research on small groups across disciplinary boundaries **Constructivist Theories of Ethnic Politics**

Kanchan Chandra,2012-10-25 Taking the possibility of change in ethnic identity into account this book shows and dismantles the theoretical logics linking ethnic diversity to negative outcomes and processes such as democratic destabilisation clientelism riots and state collapse Even more importantly it changes the questions we can ask about the relationship between ethnicity politics and economics **Separatism and Integration** Bertrand M. Roehner,Leonard J.

Rahilly,2002-09-10 Our understanding of separatist movements is challenged daily by news reports from places as varied as India Indonesia Kosovo and Quebec This book gives readers a new insight into these movements by providing a thorough analysis of separatism from a historical and comparative perspective It also studies the conditions which ensure the success of integration and of melting pot processes in particular at the language level **The British National Bibliography**
