Art In Primitive Societies:

Art in Primitive Societies Richard L. Anderson, 1979 Brings together the many insights of cultural anthropologists and art historians treating art as both a visual and a cultural phenomenon Art and Aesthetics in Primitive Societies Carol F. Jopling, 1971 **What Is Art For?** Ellen Dissanayake, 2015-09-01 Every human society displays some form of behavior that can be called art and in most societies other than our own the arts play an integral part in social life Those who wish to understand art in its broadest sense as a universal human endowment need to go beyond modern Western elitist notions that disregard other cultures and ignore the human species four million year evolutionary history This book offers a new and unprecedentedly comprehensive theory of the evolutionary significance of art Art meaning not only visual art but music poetic language dance and performance is for the first time regarded from a biobehavioral or ethical viewpoint It is shown to be a biological necessity in human existence and fundamental characteristic of the human species In this provocative study Ellen Dissanayake examines art along with play and ritual as human behaviors that make special and proposes that making special is an inherited tendency as intrinsic to the human species as speech and toolmaking She claims that the arts evolved as means of making socially important activities memorable and pleasurable and thus have been essential to human survival Avoiding simplism and reductionism this original synthetic approach permits a fresh look at old questions about the origins nature purpose and value of art It crosses disciplinary boundaries and integrates a number of diverse fields human ethology evolutionary biology the psychology and philosophy of art physical and cultural anthropology primitive and prehistoric art Western cultural history and children's art The final chapter From Tradition to Aestheticism explores some of the ways in which modern Western society has diverged from other societies particularly the type of society in which human beings evolved and considers the effects of the aberrance on our art and our attitudes toward art This book is addressed to readers who have a concerned interest in the arts or in human nature and the state of modern society Anthropology, Art, and Aesthetics Jeremy Coote, Anthony Shelton, 1992 This collection of essays on anthropological approaches to art and aesthetics is the first in its field to be published for some time It is finely balanced between developing existing traditions in the anthropology of art and charting new problematics and approaches **Primitivism and Twentieth-Century Art** Jack Flam, Miriam Deutch, 2003-03-27 This is a much needed important collection a goldmine of sources for scholars and students The texts articulate the key Primitivist aesthetic discourses of the period offering crucial insight into the complex and always changing nexus between culture politics and representation Because of the breadth of the materials covered and the controversies they raise this anthology is one of the all too rare volumes that not only will provide reference materials for years to come but also will feature centrally in classroom discussions Suzanne Preston Blier author of *African Vodun Art Psychology and Power* For almost a century art historians have fretted about the notion of primitivism in the arts This comprehensive in both senses of the word anthology is a peerless source of the history of responses to works categorized as

primitive In its range the book touches upon all the troubling questions formal anthropological political historical that have bedeviled the study of the arts of Oceania Africa and North and South America and provides the grounds at last for intelligent pursuit of keener distinctions I regard this book as a superb contribution to the study of Modern art in fact indispensable Dore Ashton author of *Noguchi East and West* An extraordinarily useful and complete collection of primary documents many translated for the first time into English and almost all unlikely to be encountered elsewhere without serious effort Its five sections each with a lively and scholarly introduction reveal the diverse views of artists and writers on primitive art from Matisse Picasso and Fry to many far less known and sometimes surprising figures The book also uncovers the politics and aesthetics of the major museum exhibitions that gained acceptance for art that had been both reviled and mythologized Recent texts included are all germane This book will be invaluable for any college course on the topic Shelly Errington author of *The Death of Authentic Primitive Art and Other Tales of Progress* An exceptionally valuable anthology of seventy documents most heretofore unavailable in English on the ongoing controversies surrounding Primitivism and Modern art Insightfully chosen and annotated the collection is brilliantly introduced by Jack Flam s essay on the historical progression contexts and cultural complexities of more than one hundred years ideas about Primitivism Rich timely illuminating Herbert M Cole author of *Icons Ideals and Power in the Art of Africa* *The Effects of Acculturation on the Art of Primitive Societies, the San Blas Cuna* Nancy L. The Colonial and National Formations of the National College of Arts, Lahore, circa 1870s to 1960s Nadeem Omar Tarar,2022-02-08 Utilizing archival sources this book examines the formation and evolution of the National College of Arts NCA in Lahore a pivotal institution shaping the art architecture and design landscape of contemporary Pakistan since the 19th century Theoretical analysis reveals how the NCA as a bureaucratic entity has influenced the development of design schools museums and artistic practices in both British India and Pakistan initially under the influence of British art education from South Kensington The study traces the institution s history from its metropolitan European roots during the British colonial period through the American restructuring of art education administration and pedagogy in the early years of independence It explores how frameworks of art history and anthropology have been used to construct and objectify Pakistani art and artists By deconstructing these disciplinary frameworks the book sheds light on how imperial and nationalist discourses have intersected to influence and redefine artistic and cultural identities within Pakistan *Art and Aesthetics in Primitive Societies* Carol F. Joplin,1971 **Art and its Objects** Richard Wollheim,2015-10-15 This book is an influential study of the central questions and philosophical issues raised by art Constructing a Sociology of the Arts Vera L. Zolberg,1990-02-23 At a time when a pile of bricks is displayed in a museum when music is composed for performance underwater and the boundaries between popular and fine art are fluid conventional understandings of art are strained in describing what art is what it includes or excludes whether and how it should be evaluated and what importance should be

assigned the arts in society In this book Vera Zolberg examines diverse theoretical approaches to the study of the arts Ranging over humanistic and social scientific views representing a variety of scholarly traditions American and European she then develops a sociological approach that evaluates the institutional economic and political influences on the creation of art while also affirming the importance of the question of artistic quality The author examines the arts in the social contexts in which they are created and appreciated focusing on the ways in which people become artists the institutions in which their careers develop the supports and pressures they face the publics they need to please and the political forces with which they must contend Particular subjects covered include the process by which works are created and re created at different times with changed meanings and for new social uses the role of the audience in the realization of artistic experiences the social consequences of taste preferences the reasons for change in artistic styles and for the coexistence of many art forms and styles **Men and Cultures** Anthony F.
