---

### Lesson 1 - The Study of Arts and Humanities

The humanities and the arts are central to all human cultures throughout time. Their study can facilitate deeper intercultural understanding and lay the groundwork for a civically engaged life. They can also prepare you to think critically, act creatively, and succeed in a rapidly changing world.

The arts and humanities not only allow you to pursue your passions, but also provide a path to future careers.

**Arts** subjects encourage self-expression and creativity and can build confidence as well as a sense of individual identity. ... **Studying arts** subjects also help to develop critical thinking and the ability to interpret the world around us.

A humanistic education will help you understand, appreciate, and produce art, music, theatre, and literature. **Humanities** disciplines focus on understanding beauty and the good, and give students the opportunity to practice making good and beautiful things themselves.

The **humanities** are the stories, the ideas, and the words that help us make sense of our lives and our world. ... By showing how others have lived and thought about life, the **humanities** help us decide what is **important** in our own lives and what we can do to make them better.
