Korean Art since 1945: Challenges and Changes Youngna KIM, 2024-09-16 Over the past decades Korea has gradually risen to become one of the global representatives of Asian culture Korean artists have been increasingly active at an international level with many being invited for residencies and exhibitions all over the world Nonetheless for various reasons the general understanding of Korean contemporary art remains insufficient Although a few overviews of Korean contemporary art do exist they typically focus on the history of art groups and movements In addition several anthologies have been published with articles on a range of topics offering multiple perspectives However there have been few attempts to provide a unified synopsis of Korean contemporary art Presenting a comprehensive engaging survey that covers the full spectrum of Korean contemporary art Korean Art since 1945 Challenges and Changes seeks to fill this lacuna Drawing on primary sources it discusses the main issues including the ideological stakes that affected the art world modernist art vs political art and the fluidity of concepts such as tradition and national identity Moreover the book also has a chapter on the art of North Korea Korean Art since 1945 Challenges and Changes is an invaluable tool for those intent on grasping the entire scope of modern art in Asia

Art After the Bomb Darrell D. Davisson, 2008 This book is requisite reading material for any person claiming to be an educated and informed member of the global community Our understanding in the West of the Eastern cultures specially the different cultures involving the Muslims is alarmingly low The book strives to offer a view from the ground a keyhole perspective that offers the readers a close and personal peek into some of the ethical underpinnings and the philosophical guiding parameters that inform the Muslim and the Eastern mind There are over 1.3 billion Muslims in the world It would be a serious intellectual fallacy to assume that they are all homogenous or to be more preposterous assume they are all terrorists It is extremely tragic that it took the Iranian hostage crisis to teach us about Shia Islam and 9/11 to teach us about Wahabi Islam Properly acquired knowledge not just what we learn from the media will allow us to be anticipatory and rational rather than being reactive and emotional For the Muslim reader specially the children and the youth the book strives to offer a deeper understanding of Islam beyond the boundaries of ritual Islam into the wide open space of spiritual and intellectual Islam To inspire them to appreciate and live up to the wonderful legacy of Islam and not to be mired down into some deviant interpretations of people with questionable motives The book is designed to encourage the process of tearing down walls and building bridges We share common dreams aspirations and challenges We share a common globe and a common destiny The author believes that there are no clashes of civilizations just clashes of ignorance and misunderstanding
