c't Working with AI c't-Redaktion, 2024-01-24. The special issue of c't KI Praxis provides tests and practical instructions for working with chatbots. It explains why language models make mistakes and how they can be minimised. This not only helps when you send questions and orders to one of the chatbots offered online. If you do not want to or are not allowed to use the cloud services for data protection reasons, for example, you can also set up your own voice AI. The c't editorial team explains where to find a suitable voice model, how to host it locally, and which service providers can host it. The fact that generative AI is becoming increasingly productive harbours both opportunities and risks. Suitable rules for the use of AI in schools, training, and at work help to exploit opportunities and minimise risks. **AI 100** **AI 100**, AI, 2024-04-17. midjourney AI The First and Second Lady Chatterley Novels D. with a reflection on how academics and curators can be involved in the creative process and how artists contribute to academic research

Praise for Contemporary Art and the Display of Ancient Egypt This is an important and innovative study on the recent history of incorporating art installations in galleries of Egyptian antiquities Offering a thoughtful critical analysis of the ways in which contemporary art and ancient artefacts are juxtaposed in museum settings the book calls for a more nuanced and politically engaged practice of collaboration between artists and Egyptologists

Stephanie Moser University of Southampton Archaeologist Alice Stevenson provides a thoughtful consideration of the goals and intent behind contemporary art interventions in exhibitions of ancient Egyptian art She challenges the curators scholars and museum professionals who design these exhibitions to move beyond the simplistic ancient art contemporary art juxtaposition and instead use contemporary art interventions to create spaces for both artistic and academic insight and inspiration I look forward to such dialogue
