approach to the Java programming language that introduces readers to useful class hierarchies from the very beginning Book Description Art of Java ,2002 **L'art a Java** P. Verneuil,1927 The Builder ,1883 *Java Gallery* Java Gallery, **The Art & Science of Java** Eric Roberts,2008 'Greater India' and the Indian Expansionist Imagination, c. 1885-1965 Jolita Zabarskaitė,2022-11-07 This book is the first systematic study of the genealogy discursive structures and political implications of the concept of Greater India implying a Hindu colonization of Southeast Asia and used by extension to argue for a past Indian greatness as a colonial power reproducible in the present and future From the 1880s to the 1960s protagonists of the Greater India theme attempted to make a case for the importance of an expansionist Indian civilisation in civilizing Southeast Asia The argument was extended to include Central Asia Africa North and South America and other regions where Indian migrants were to be found The advocates of this Indocentric and Hindu revivalist approach with Hindu and Indian often taken to be synonymous were involved in a quintessentially parochial project despite its apparently international dimensions to justify an Indian expansionist imagination that viewed India s past as a colonizer and civilizer of other lands as a model for the restoration of that past greatness in the future Zabarskaite shows that the crucial ideologues and elements used for the formation of the construct of Greater India can be traced to the svade movement of the turn of the century and that Greater India moved easily between the domains of the scholarly and the popular as it sought to establish itself as a form of nationalist self assertion *Building Practice in the Dutch East Indies* David Hutama Setiadi,2022-12-30 This book reveals the epistemic imposition of architectural ideas and practices by colonists from the Netherlands in the Dutch East Indies from the late 19th century onwards exploring the ways in which this came to shape the profession up to the present day in what is now known as Indonesia The author investigates the scope of these interventions by Dutch colonial agents in relation to existing Javanese building practices pursuing two main lines of enquiry The first is to examine the methods of dissemination of Dutch taught technical knowledge and skills across the Dutch East Indies The second is to scrutinise the effects of this dissemination upon the formation of architectural knowledge and practice within the colony Throughout this book the argument is made that what took place in architecture in the Dutch East Indies involved a process of disseminating building knowledge as a form of epistemic imposition upon the indigenous citizens of the colony in other words as an effective instrument of Dutch colonial power This book will be of interest to architecture academics and students interested in developing a broader global understanding of architecture especially those interested in decolonising the teaching of architectural history and theory *The Fighting Art of Pencak Silat and its Music* ,2016-01-12 Fighting arts have their own beauty internal philosophy and are connected to cultural worlds in meaningful and important ways Combining approaches from ethnomusicology ethnochoreology performance theory and anthropology the distinguishing feature of this book is that it highlights the centrality of the pluripotent art form of pencak silat among Southeast Asian arts and its importance to a network of traditional and modern performing arts in Southeast Asia and beyond By doing so important

layers of local concepts on performing arts ethics society spirituality and personal life conduct are de mystified With a distinct change in the way we view Southeast Asia this book provides a wealth of information about a complex of performing arts related to the so called world of silat An ancillary media companion website [www bits4culture org](http://www.bits4culture.org) pencaksilatandmusic is part of this work Login authorisation information is included in the book Contributors include Bussakorn Binson Jean Marc de Grave Gisa J hnichen Margaret Kartomi Zahara Kamal Indija Mahjoeddin Ako Mashino Paul H Mason Uwe U Paetzold Kirstin Pauka Henry Spiller and Sean Williams
