Art Of Acquiring A Portrait Of Etta And Claribel Cone:

The Art of Acquiring Mary Gabriel,2002-08-18 For four and a half decades Etta and Claribel Cone roamed artists studios and art galleries in Europe building one of the largest most important art collections in the world In 1949 they awarded all their holdings to the Baltimore Museum of Art In 2002 that collection was valued at nearly 1 billion making them two of the most philanthropic art collectors of our age This is their story *The Grove Encyclopedia of American Art* Joan M. Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries **Enchanted Lives, Enchanted Objects** Dianne Sachko Macleod,2008 This insightful and beautifully illustrated book offers the first feminist analysis of the phenomenon of women art collectors in America Dianne Sachko Macleod brings a surprising paradox to light showing that collecting which provided wealthy women with a private sense of solace also liberated them to venture into the public sphere and make a lasting contribution to the emerging American culture Beginning in the antebellum period continuing through the Gilded Age and reaching well into the twentieth century Macleod shows how elite women enlisted the objets d art and avant garde paintings in their collections in causes ranging from the founding of modern museums to the campaign for women s suffrage *The Cone Sisters of Baltimore* Ellen B. Hirschland,Nancy Hirschland Ramage,2008-07-03 They were friends with Picasso and Matisse They ran in the same circles as Gertrude and Leo Stein They avidly purchased works by Manet Gauguin Cezanne Seurat and Degas at a time when other Americans didn t They were two Victorian women from Baltimore buying avant garde art in Paris attending salons with friends and building a collection that would initially puzzle and eventually awe the art world Over a period of fifty years sisters Caribel and Etta Cone amassed one of the most acclaimed collections of late nineteenth and twentieth century art in America Dr Claribel and Miss Etta were two halves of an idiosyncratic team who used the fortunes of their German Jewish immigrant family to seek out works that inspired and pleased them regardless of public opinion This richly illustrated biography documents their lives from a unique perspective that of their great niece and their great great niece Ellen B Hirschland and her daughter Nancy Hirschland Ramage delve into Claribel s and Etta s world following the sisters through letters and personal stories as they travel to meet the artists whose work would turn their adjoining apartments into a virtual museum The sisters experiences in Paris in the 1910s and 1920s provide an exceptional view of the bright artistic ferment in the city at that time Only time would vindicate their keen vision and unwavering taste 2010, 000000 000000 '0 000 0000

Becoming Hitler Thomas Weber, 2017 In *Becoming Hitler* Thomas Weber continues from where he left off in his previous book *Hitler's First War* stripping away the layers of myth and fabrication in Hitler's own tale to tell the real story of Hitler's politicization and radicalization in post First World War Munich It is the gripping account of how an awkward and unemployed loner with virtually no recognizable leadership qualities and fluctuating political ideas turned into the charismatic self assured virulently anti Semitic leader with an all or nothing approach to politics with whom the world was soon to become tragically familiar As Weber clearly shows far from the picture of a fully formed political leader which Hitler wanted to portray in *Mein Kampf* his ideas and priorities were still very uncertain and largely undefined in early 1919 and they continued to shift until 1923

Psychoanalytic Perspectives on Art, V. 3 Mary M. Gedo, 2013-05-13. This new hardcover annual offers a unique scholarly format: an interdisciplinary dialogue that it is hoped will foster the development of a sound, useful methodology for applying psychoanalytic insight to art and artists. The series provides a medium for those who study art, those who interpret it, and occasionally those who create it formally to explore the meaning of an artistic work as the direct reflection of the inner world of its creator. Within each volume, individual topics are addressed by either an art historian or a psychoanalyst, with a response frequently tendered by an expert from the other field. Reviews of important books of cross-disciplinary interest are treated in a similar manner and include rebuttals by the authors themselves. It is precisely this exchange of ideas among scholars with different perspectives on the meaning of a work of art that sets PPA apart from the standard art history publication. Its depth of scholarship coupled with its innovative format make it a fascinating addition to the burgeoning field of psychoanalytic studies of art history.
